KEEP THEM CUSTOMERS ROLLIN'

Here at Drag Specialties/Parts Unlimited, bike and ATV/UTV tires aren't just tires – they're asphalt shreddin', dirt spittin' and mudslingin' rubber wheels of pure adrenaline!

The 2015 Drag Specialties/Parts Unlimited Tire catalog is sure to pump-up sales with the top brand name tires for Street, Drag Specialties (V-Twin), Offroad and ATV/UTV. We also take pride in bringing the latest tires for all types of powersports, and a quick flip of these pages showcases just that!

The new 2015 edition of tire size application charts feature more tire sizes, more models and even more year updates than ever before. Don't forget to check out the service tools and accessories sections. Combined with the easy-to-use tires sections, you have all you need to burn some showroom rubber!

All model designations and applications used herein are determined by the manufacturer as U.S.A.-specific.

Contact the individual manufacturer for additional international model information.

BASIC TIRE INFORMATION

SAFETY INFORMATION: THE FOLLOWING INFORMATION MUST BE GIVEN TO PURCHASING PERSONNEL, MOTORCYCLE TECHNICIANS, TIRE FITTERS AND CUSTOMERS.

TYPICAL TIRE MARKINGS

01 Nominal section width, expressed in metric, inch or alpha; see size chart below.
02 Ratio between tire section height and nominal section width. This ratio is not indicated when section width is expressed in inches (eg. 3.50-18).
03 Code for tire construction (- = Bias, R = Radial, B = Bias Belted).
04 Nominal rim diameter size in inches.
05 "Motorcycle" in abbreviated form. Differentiates motorcycle tires and rims from those designed for other vehicles. Shown on some models only.
06 Speed symbol. Indicates the tire's speed; see speed rating chart below.
07 Tubeless (TL) or tubetype (TT), as applicable.
08 Expresses the tire's maximum load capacity (pounds) at the pressure indicated (psi); see load index chart below.
09 Indicates where the tire was produced.
10 Abbreviation of "US Department of Transportation." Serves to indicate that the tire conforms to the regulations issued by the US Department of Transportation. Includes the serial # for the tire, and the last 3 or 4 numbers represent the date. Example 3805 means the tire was produced in the 38th week of 2005.
11 The arrows indicate the direction of rotation of the tire according to the fitting position (Front-rear); applicable for directional tires only.
12 Number of plies and material.
13 Tread Wear Indicator, as applicable

SPEED RATING CHART

	J	L	M	P	Q	R	S	T	H	V/VB	(V)/(VB)	W	(W)
MPH	62	74	81	93	100	106	112	118	130	149	149+	168	168+

LOAD INDEX CHART

47 = 386 lb.	53 = 454 lb.	59 = 536 lb.	65 = 639 lb.	71 = 761 lb.	77 = 908 lb.	83 = 1,074 lb.
48 = 397 lb.	54 = 467 lb.	60 = 551 lb.	66 = 661 lb.	72 = 783 lb.	78 = 937 lb.	84 = 1,102 lb.
49 = 408 lb.	55 = 481 lb.	61 = 567 lb.	67 = 677 lb.	73 = 805 lb.	79 = 963 lb.	85 = 1,135 lb.
50 = 414 lb.	56 = 494 lb.	62 = 584 lb.	68 = 694 lb.	74 = 827 lb.	80 = 992 lb.	86 = 1,168 lb.
51 = 430 lb.	57 = 507 lb.	63 = 600 lb.	69 = 716 lb.	75 = 853 lb.	81 = 1,019 lb.	87 = 1,202 lb.
52 = 441 lb.	58 = 520 lb.	64 = 617 lb.	70 = 739 lb.	76 = 882 lb.	82 = 1,047 lb.	

SIZE

Size may be indicated in inches, metric, or by letters (alpha). The chart shows the approximate comparison of the different size indications.

STREET TIRE SIZE CONVERSION CHART

SAFETY WARNINGS:

MAINTAIN RECOMMENDED TIRE PRESSURE AND FOLLOW OWNER'S MANUAL.

FAILURE TO FOLLOW MANUFACTURER'S RECOMMENDATIONS AND REQUIREMENTS CAN CAUSE TIRE FAILURE RESULTING IN SERIOUS INJURY OR DEATH.

ALL TIRES SHOULD BE MOUNTED ONLY BY TRAINED PERSONNEL. ONLY PROPERLY TRAINED PERSONNEL USING PROPER TOOLS AND SAFETY EQUIPMENT SHOULD UNDERTAKE MOUNTING OF TIRES AND THEY SHOULD FOLLOW RECOMMENDED PROCEDURES, ESPECIALLY FOR ATV/UTV TIRES, INCLUDING BUT NOT LIMITED TO THE FOLLOWING: (I) USE ONLY A CLIP-ON STYLE AIR CHUCK WITH A LONG EXTENSION HOSE, REMOTE FILLER AND INFLATION GAUGE; (II) USING A TIRE MOUNTING LUBRICANT, LUBE THE TIRE AND RIM BEAD SEAT; (III) THE TIRE AND WHEEL MUST BE LOCATED AWAY FROM ALL PERSONNEL USING A SOLID BARRIER LIKE A BLOCK WALL OR TIRE MOUNTING CAGE BETWEEN THE TIRE/WHEEL ASSEMBLY AND THE INSTALLER WITH THE TIRE/WHEEL ASSEMBLY BEING OUT OF "LINE OF SIGHT" DURING THE INFLATION PROCESS; (IV) DETERMINE THE TIRE'S MAXIMUM RECOMMENDED TIRE INFLATION PRESSURE; (V) REMOVE THE VALVE CORE FROM THE VALVE, INFLATE THE TIRE UNTIL THE BEADS' SEAT SNAP OR UNTIL THE MANUFACTURER'S MAXIMUM RECOMMENDED TIRE PRESSURE IS REACHED BUT NEVER EXCEED THE TIRE MANUFACTURER'S MAXIMUM PRESSURE; (VI) IF THE TIRE BEADS DO NOT SNAP, STOP AND RELEASE ALL AIR FROM THE TIRE/WHEEL ASSEMBLY AND CALL THE MANUFACTURER FOR HELP; (VII) ONCE THE TIRE BEAD IS SEATED, DISCONNECT THE CHUCK, RE-INSTALL THE VALVE CORE AND INFLATE TO PROPER OPERATING PRESSURE.

All part numbers in **BOLD MAGENTA** are new this year.

STREET TIRE SIZE APPLICATION GUIDE

•The following guide shows all available tires for Street Bike, Sport Bike, Scooter, Moped and Sidecar applications. Tires in this guide are listed in order, sorted by rim diameter (small to large), overall section width/aspect ratio, market application and front and/or rear applications. Simply find the size, front or rear and market application of tire for your vehicle.

The Application corresponds to the following codes:

CRS/TOUR – Cruiser bike/touring bike applications
DUALSPORT – Dual sport/adventure touring applications
CUSTOM – Cruiser/custom bikes
GEN – Commuting/general all-purpose street tire
MEDIUM – Medium race compound
MOPED – Moped
MOTARD – SuperMotard tire for street/track
OEM – OE replacement tire as suggested by the manufacturer
RACE – High-performance track/street
SCOOTER – Scooter
SIDECAR – General-purpose sidecar applications
SOFT – Soft race compound
SPORT – Sport riding/performance tire
SPRTNG – Sport-touring
SPRSPRT – Sport riding/track day tire
SUPERSOFT – Softest race compound
WS – White stripe sidewall
WWW – Wide white wall

NOTE: The information provided here is not warranted as to the truth or accuracy by Parts Unlimited or its parent company, LeMans Corporation. The information is collected from the tire manufacturer and published for your reference. Any additional information or questions regarding this information or questions about the fitment and maintenance of the tires should be obtained from the tire manufacturers.

STREET TIRE SIZE APPLICATION GUIDE continued on next page.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

STREET TIRE SIZE APPLICATION GUIDE continued on next page.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

STREET TIRE SIZE APPLICATION GUIDE continued on next page.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

DUNLOP TIRES

Dunlop is the only company manufacturing motorcycle tires in the U.S.A. Developing innovative technology for the American market, Dunlop pursues racing at the highest levels. As the sole official tire supplier to AMA Pro Road Racing since 2009, Dunlop has introduced new tires to the AMA paddock that produce faster lap times every year. Dunlop's success also extends to the harsh conditions of off-road racing as Dunlop riders have won all the 2014 AMA Pro Supercross and Motocross championships for the fifth year in a row. More importantly, the tire technology we develop with input from these professional racers helps drive the creation of new tires – tires that make riding more enjoyable for all riders.

- Decades of providing Original Equipment tires to American manufacturers
- Official tire of the AMA Pro Road Racing
- Developed in the U.S.A.
- Tested in the U.S.A.
- Manufactured in the U.S.A. (where made in the U.S.A. logo is shown)

DUNLOP Q3 RADIALS

- Features Carbon Fiber Technology (CFT)
- Exhibits exceptional cornering stability, especially at high lean angles, responsive and precise steering characteristics, and predictable, smooth transitional-steering performance and impressive performance in dry conditions as a result of CFT
- New tread pattern utilizes Dunlop's cosecant-curve but with fewer grooves that are longer-track-proven to greatly enhance wet-weather performance
- Incorporates MT Multi-Tread technology providing a cool-running, long-wearing compound in the center for long tread life, enhanced straight-line stability and excellent traction, while the sides feature lateral grip compounds to enhance traction at moderate-to-maximum lean angles
- Blackwall
- (W)-rated for speeds of 168+ mph

AMERICAN ELITE

MT MULTI-TREAD

PREMIUM REPLACEMENT HARLEY-DAVIDSON® TOURING/CRUISER TIRE

•The only replacement motorcycle tires for Harley-Davidson® bikes that are designed in America, made in America and tested in America
•Multi-Tread (MT) rear tires built with a long-wearing compound in center of tread and lateral-grip compound in each shoulder to maximize cornering performance
•Tread design provides even tread wear and quiet operation in all conditions, both wet and dry
•H-rated for speeds up to 130 mph
•Made in the U.S.A.

DUAL-SPORT/ADVENTURE TOURING TIRES

- Dual-purpose high-performance adventure touring tire
- Silica-fortified tread compound for enhanced traction and grip while helping to reduce rolling resistance
- V-shaped pattern with crossing grooves pull water quickly and effectively away from the tread contact patch
- Enhanced abrasion resistance yields higher mileage in on-highway usage, while the new tread block design provides enhanced wear resistance in off-road conditions
- Jointless Belt Technology utilizes a continuously wound belt that enables smooth performance at highway speeds, a more consistent contact patch and enhanced shock absorption
- H-rated for speeds up to 130 mph or V-rated for speeds up to 149 mph

MICHELIN TIRES

- Michelin manufactures and sells tires for every type of vehicle including airplanes, automobiles, bicycles, earthmovers, farm equipment, heavy-duty trucks, motorcycles and even the space shuttle
- Racing is the best laboratory for testing technological innovations in extreme situations and is a powerful driver of progress; Michelin tires continuously undergo the toughest of all reality checks: championship competition
- Michelin has an impressive history in motorcycle competition; a few highlights include: MotoGP, more than 350 wins and 26 world titles in MotoGP plus dozens of World Championships in Motocross, Supercross, Enduro, Trials and Dakar Rallies

PILOT POWER 3

DUAL-COMPOUND SPORTBIKE STREET TIRE

- Tread pattern designed to inhibit irregular wear
- 20% longer tread life than MICHELIN® Pilot Power 2CT™
- 2CT+ technology on rear tire enhances tread rigidity and cornering stability
- Casing profile optimized for excellent feedback and handling
- All new compound for exceptional wet grip
- Semi-slick tread design maximizes contact patch for dry grip
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

COMMANDER II®

CRUISER TIRES

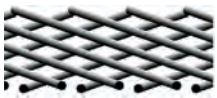

- Michelin states, "Provides nearly twice the mileage of competitive cruiser tires (based on independent testing)"
- Radically different tread pattern for head-turning looks; premium sidewall treatment complements cruiser styling
- Rubber compounds provide remarkable wet grip without compromising durability
- Square bead wires improve casing rigidity, handling and ease of installation
- Amplified Density Technology, a highly dense, more-rigid tire casing, helps deliver excellent feedback and handling
- Commander II tires designed for dramatically extended mileage and feature Aramid tread plies to resist centrifugal growth, reduce weight and provide excellent stability
- Tubeless (TL) or tube type (TT)
- Blackwall
- S-rated for speeds up to 112 mph; H-rated for speeds up to 130 mph; V-rated for speeds up to 149 mph; W-rated for speeds up to 168 mph

Commander II® Front/Rear

Bead Wires

Conventional 71-thread ply

Commander II® 90-thread ply is 25% more dense than conventional plies

Pilot ACTIV

PILOT® ACTIV

SPORT TOURING BIAS-PLY TIRES

- Sets a standard for bias-ply sport touring tires; 20% greater tread life than earlier Michelin bias-ply tires
- Significantly improved wet and dry grip due to increased rubber contact with road and new rubber mix
- Optimum performance throughout life of tire
- Available in a wide range of sizes; perfect for older bikes
- Tubeless (TL) or tube type (TT)
- Blackwall
- H-rated for speeds up to 130 mph; V-rated for speeds up to 149 mph

METZELER
SHARING INDEPENDENCE

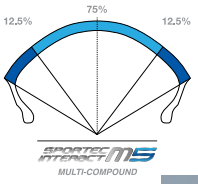

METZELER MOTORCYCLE TIRES: ON THE ROAD SINCE 1892

In its 122-year history Metzeler has always satisfied market demands with German innovation. Metzeler has always been an industry leader, setting trends that others are still trying to achieve. Here are some milestones in the company's long history:

1890: Metzeler became a leader in the growing aviation industry, developing a multi-level rubber manufacturing method for linen and cotton fabric. This product was used for balloon, airship and aircraft construction.
1892: Metzeler played an important role in tire development for the bicycle, motorcycle and motorcar industry.
1937: Set the high-speed world record for motorcycles at 173.29 mph.
1983: Metzeler introduces the first cross-ply tire with a Kevlar® belt for mass production. This leads to the introduction of "MBS" – Metzeler Belt System.
1987: Metzeler launches the first Silica-tread compound for motorcycle tires, called "Comp K."
1992: Metzeler introduces the worldwide first 0° steel-belted radial rear tire for motorcycles – the MEZ1.
1996: Metzeler develops the first 0° steel-belted radial front tire, The MEZ4.
2000: Metzeler introduces the new ME880 in the size of 240/40R-18 to meet the demands of tuners world wide. With a width of 243mm it was the world's widest motorcycle tire.
2008: Once again Metzeler shows its commitment to the V-Twin market by introducing the mileage proven ME880 in Alphanumeric sizes.
2009: Metzeler again expands its extensive range; from new ME880 sizes to the revolutionary Interact technology.
2011: Metzeler introduces the latest German made radial developed with its patented multi-zone Interact technology, the Roadtec Z8 Interact.
2012: Metzeler combines its patented Interact technology with multi-compound rear tires for the ultimate high performance tire that remains consistent throughout its life cycle.
2013: Introduction of the ME888 Ultra Mileage – No Compromise.

Sportec™ M7 RR Front/Rear

SPORTEC™ M7 RR

- Derived from the experience gained in road racing activities
- Designed to offer high levels of handling and safety, including wet, bumpy and dirty tarmac
- New profiles, revolutionary materials, new compounds and a brand new tread pattern
- Sporty handling
- Grip on wet
- Increased mileage
- Tubeless (TL)
- W-rated for speeds up to 168 mph or (W)-rated for speeds 168+ mph

Sportec M3 Front/Rear

SPORTEC M3

HIGH PERFORMANCE, LOW COST TIRES

- Highest performance for dollar supersport tire on the market
- New compound technology now found in proven M3 tread pattern
- New compound offers increases in dry grip performance on both the road and on the racetrack
- Progressive handling behavior delivered by the Metzeler patented 0° steel belt and the Multiradius technology development
- Tread pattern design and differentiated compound between front and rear ensuring high wet safety feeling and extended mileage
- Tubeless (TL)
- W-rated for speeds up to 168 mph or (W) rated for speeds of 168+ mph

RACETEC EASIER TO GO FASTER

Racetec Interact Front/Rear

RACETEC INTERACT

RACE/TRACKDAY/STREET TIRES

- OE fitment on Aprilia RSV4R, BMW S1000RR and Triumph Speed Triple
- The ultimate trackday tire that provides confidence-inspiring grip and renowned Metzeler stability
- The K3 tire is the most affordable Raceday/Trackday tire available
- Lower tension in the crown area creates more flexibility for better contact to the road surface, enlarging its footprint
- High steel belt winding tension in the shoulder area ensures maximum and uniform pressure on the contact patch: the trajectory is therefore always precise, without deviation
- Latest application of the patented 0° steel belt platform
- Race tire technology for better balance in corners and under braking
- Three compounds available are precisely tuned for faster warmup and better grip
- K1 Super soft, K2 Soft and K3 Medium
- Tubeless (TL)
- W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+

Roadtec Z8 Front/Rear

Roadtec Z8 "3 tension zones"

ROADTEC Z8 INTERACT™

DUAL COMPOUND–SPORT TOURING TIRES

- Rear tires feature Metzeler multi-zone compound
- The Roadtec Z8 Interact also incorporates three tensions zones to provide best in-segment mileage and optimal wet performance throughout the tire's life thanks to an innovative tread pattern, a widened and more elliptical footprint, and a host of wear-resistant technologies not normally seen in motorcycle tires
- New O-spec replacment for BMW K 1600 GT and K 1600 GTL
- Everything about the new Roadtec Z8 Interact™ has been designed to put the rider in control; it responds like an extension of the rider's instincts, creating an invigorating blend of precise riding feel and effortless handling
- High-silica compound with nano-particles increases performance and safety in all weather conditions
- All-new profile matched with new patented tread design provides easy handling and reduced push steering for maximum confidence in all maneuvers
- A final footprint area 8% wider as compared to its predecessor
- O-Spec rears feature a 2-ply carcass for heavy sport-touring bikes
- M-Spec rears feature dual-compound construction
- Metzeler's patented tread pattern reduces front tire land-sea ratio to 11% and the rear tire land-sea ratio to 13%. Strategically placed longitudinal central grooves provide ideal drainage for more than ¾ of all lean angles in the wet. The remaining tread grooves work to add tread flexibility, extending the footprint for stability in the dry
- The updated design of the Roadtec Z8 improves wear regularity, which gives riders the benefit of a consistent riding performance across the tire's entire life
- Tubeless (TL)
- W-rated for speeds up to 168 mph or (W)-rated for speeds of 168+ mph

ME880 MARATHON

HIGH-MILEAGE CRUISER TOURING TIRES FOR GENERAL REPLACEMENT/OEM AND MODEL-SPECIFIC APPLICATIONS

- Premium line dedicated to cruiser and heavy touring bikes, featuring high-tech construction not found in other cruiser tires
- Machine-specific carcass construction for exceptional riding comfort and stability at all speeds, even under heavy load
- Built to handle the higher loads and handling characteristics of cruiser and touring bikes
- Front tires feature rounded tread profile for smooth, neutral steering
- Rear tires feature flatter tread profile and larger contact patch for better traction and mileage
- Computer-designed tread pattern with offset groove alignment for uniform wear characteristics, low noise
- Tread pattern has excellent water displacement ability and stability over rain grooves and under hard braking
- Alpha sizes (MH, MT, MU) provide higher load capacity and increased mileage
- S-rated for speeds up to 112 mph, H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, W-rated for speeds up to 168 mph or (W)-rated for speeds of 168+ mph
- Metzeler tubes available in TUBES & ACCESSORIES section
- Custom ME880 sizes available on page 42

ME880 MARATHON XXL
UPGRADE AND CUSTOM TIRES

- The first radial tire for cruiser and custom bikes with the latest 0° steel belt technology
- Built to handle the loads and handling characteristics of cruiser bikes with custom frames
- Front tires feature rounded tread profile for smooth, neutral steering
- Rear tires feature round tread profile and larger contact patch for better traction and a softer ride
- Computer-designed tread pattern with offset groove alignment for uniform wear characteristics and low noise
- Tread pattern has excellent water displacement ability and stability over rain grooves and under hard acceleration and braking
- Be conscious of the difference between radial tires and bias-ply tires when switching sizes
- Ideal for high-quality, custom-built cruiser bikes
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, (V)-rated for speeds of 149+ mph, W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+ mph

Lasertec Front/Rear

LASERTEC

BIAS SPORT TOURING TIRES

- Proven tread patterns for all-weather riding
- Tread pattern design provides excellent water drainage that reduces hydroplaning, enhancing wet performance for safe riding in all weather conditions
- Special compounds ensure higher braking performance on both wet and dry surfaces
- Classic tread pattern is designed to prevent irregular wear and cupping
- Multiple-Radius Contour Design is tuned specifically for the bias-tire touring segment and provides radial-type handling
- High silica content helps provide outstanding grip in all weather conditions and reduces rolling resistance to improve mileage
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph or (V)-rated for speeds of 149+ mph

METZELER SHARING INDEPENDENCE

ENDURO 3 SAHARA

DUAL-SPORT TIRES

50% ON 50% OFF

- Enduro tire with very good on-road performance dedicated to the globetrotters always looking for fun riding no matter what the terrain
- Special tread compound perfectly combining safe cornering grip on the road and good off-road traction
- Tread pattern features knobs with geometry designed for fast self-cleaning; this allows the rider stable and precise trajectories without skidding on soft, muddy terrains
- Great handling with easy corner entry and stable cornering
- Tube type or tubeless (TL)
- DOT certified; S- rated for speeds up to 112 mph, T-rated for speeds up to 118 mph or H-rated for speeds up to 130 mph

BRIDGESTONE

Nashville-based Bridgestone Americas Tire Operations, LLC, is a subsidiary of Bridgestone Americas, Inc., whose parent company, Bridgestone Corporation, is the world's largest tire and rubber company. Bridgestone uses racing-inspired technology to help develop many of its high performance on-road and off-road products.
In MotoGP, after just 6 years of competition at the pinnacle of road racing, Bridgestone won its first MotoGP championship. Bridgestone became the exclusive tire supplier to all participating teams beginning in 2009.
Bridgestone riders have scored many victories and podium finishes, including MotoGP World Championships from 2007 - 2014.
In AMA Supercross and motocross, Bridgestone enjoyed many successful seasons as the exclusive tire supplier to the factory Suzuki, Kawasaki and Yamaha teams, plus the Pro-circuit/Kawasaki team, L & M Racing and Joe Gibbs Racing. The dominance of Bridgestone riders was unequaled in off-road competition in 2009, when four of the five AMA National Supercross and motocross championships were captured by Bridgestone riders.
Bridgestone is also a major supplier of original equipment products to most of the major motorcycle manufacturers.

BATTLAX HYPERSPORT S20

BATTLAX S20

ULTRA-HIGH PERFORMANCE SPORT RADIALS

- Ultra-high performance radials designed to high handling performance and easier cornering using tread patterns and construction technology from MotoGP
- High grip levels from new rubber compounds work in a wider range of temperatures and road conditions
- Dual compound (3LC) used for both front and rear tires
- Contact patch is optimized to improve contact with road
- Performance is maintained throughout the life of the tire
- Construction technologies and compounds include: Mono-spiral, Silica Rich EX, RC polymer and Nano Pro-Tech to achieve high levels of all-around sport bike performance
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

BRIDGESTONE

BATTLAX BT-016 PRO HYPERSPORT

ULTRA-HIGH PERFORMANCE RADIAL TIRES

BATTLAX BT-016 PRO HYPERSPORT

BT-016/PRO Hypersport Front/Rear

- Ultra-high-performance radials designed to maximize the performance of all sport bikes on the road today
- Utilize a multi-compound formulated with technology from Bridgestone's MotoGP tire development, for outstanding grip in all conditions
- Front: uses dual-compound to provide grip in all riding modes and the parallel S-shaped grooves provide optimal cornering force
- Rear: uses a dual-compound to provide stronger traction and the L-shaped grooves enhance shock absorption
- 3D-CTDM (Comprehensive Tire Design Method) is an advanced tire design technology that enables dynamic, three-dimensional simulations of tire performance at all lean angles
- Utilizes a compound containing a combination of two special components, silica-rich EX and RC polymer, offer improvement of dry, wet, life and less performance decrease
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

BATTLAX BT-003 RACING STREET

BATTLAX BT-003 RACING STREET

DOT APPROVED HYPERSPORT STREET/TRACK DAY TIRES

BT-003 Front/Rear

- Combination of MotoGP-derived multi-compound technology (3LC) and Ultraction Compound
- 3LC (dual compound) construction on both the front and rear tire
- Medium compound center for increased durability and soft compound shoulder for increased traction
- Ultraction compound ("Ultraction" stands for Ultra + Traction) applied in shoulder of front and rear tire achieves both powerful grip in braking and cornering plus high-intensity traction coming out of corners
- HTSPC-MSB (High Tensile Super Penetrated Cord - Mono Spiral Belt) technology in front and rear tire improves stability, bump absorption and reduces heat generation
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

NOTE: Mid-size Sport front sizes 110/70ZR17 and 120/60ZR17 use 3LC (dual compound without Ultraction). Similar to BT-016.

NOTE: Mid-size Sport rear sizes 140/70ZR17, 150/60ZR17 and 160/60ZR17 use 5LC (triple compound without Ultraction). Similar to BT-016.

BRIDGESTONE

T30 Front/Rear

BATTLAX SPORT TOURING T30

BATTLAX SPORT TOURING T30 RADIALS

- Sport Touring tires developed to replace BT-023 with wide-range riding enjoyment
- T30 offers improved handling with light feel, linear response and better dry grip
- Tread pattern supplies handling and grip improvements by utilizing optimized stiffness and contact patch features
- Carcass Construction inspires confidence in cornering by providing increased footprint on the road, plus light, predictable handling and good line-holding
- Front rubber compound (rear is dual compound) developed using MotoGP analysis brings improved performance range of operating temperatures by utilizing RC polymer/NanoPro-Tech technology
- "GT" Spec available in five sizes to suit heavyweight motorcycles (front has modified tread pattern)
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

BRIDGESTONE

BATTLAX RACING STREET RS10

BATTLAX RS10 RACING STREET

HYPERSPORT/TRACK DAY TIRES

- High-performance sport radials optimized for high-grip and handling performance on dry surfaces
- Bridgestone's MotoGP development analysis was used to determine the placement of new 3-D tread grooves to improve stability, grip and handling by optimizing block stiffness
- Specially formulated rubber compounds front and rear offer sure grip as well as increased durability
- Front tire uses a Mono-Spiral Belt constructed with stiffer steel to enhance rigidity of the tread area for upgraded response and stability
- Rear profile enables a larger contact patch for improved grip in mid to high lean angles
- Cap and base on rear tire adds tread stiffness for stability when braking and accelerating
- Rear tire has softer sidewall construction incorporated for better damping to improve handling
- Rear is lighter than BT-003RS to lessen gyro effect for better handling
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

BATTLAX HYPERSPORT S20 EVO

BATTLAX S20 EVO

HYPERSPORT/ULTRA-HIGH PERFORMANCE SPORT RADIALS

- Ultra-High performance radials improving upon the S20 to enhance handling performance and cornering using existing tread patterns with updated construction and rubber technology from MotoGP
- Handling and stability are improved by optimized stiffness of both front and rear tires
- Wear life is enhanced without losing performance of S20
- S20 EVO (front) has Dual Compound (3LC) technology plus a high strength belt package
- Rear tire re-introduces Triple Compound (5LC) technology originally introduced in the Battlax BT-016 to provide both good grip and wear life
- Rear tire center compound provides good stability, the shoulder compound transfers power to the road with strong traction and the edge compound offers high grip and a secure contact feel
- Rear grip is also enhanced by providing a compliant contact patch
- Other technologies used include: (MS-Belt) Mono-Spiral Belt, (HTSPC) High Tensile Super Penetrated Cord and Enhanced Bead Filler, to achieve high levels of all-around sport bike performance
- H-speed rated tires have modified rubber compounds (single rubber tread compound) and carcass constructions to offer enhanced grip and handling for smaller motorcycles
- Tubeless
- Blackwall
- H-rated for speeds up to 130 mph, (W)-rated for speeds of 168+ mph

BRIDGESTONE

BT-45 Front/Rear

BATTLAX BT-45

BIAS-PLY SPORT-TOURING TIRES

- Sport touring bias-ply tires for mid-sized sport-touring bikes and older sport bikes
- Features silica enriched compound for exceptional wet and dry grip
- Dual Tread Compound (DTC) in the rear allows for longer mileage than single compound and better stability from center, while shoulders offer grip and performance while cornering
- Larger crown radius contributes to excellent stability for high-speed touring
- Blackwall
- Tubeless
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph

ORIGINAL EQUIPMENT TIRES

FOR SPORT, SPORT TOURING, CRUISERS AND STANDARDS

- The letter code in the tire size and rating column is also on the sidewall of the tire and the tire label; tires are the same size, but compound and construction will vary to suit the weight, horsepower and handling characteristics of the model for which each tire was designed
- TT type is tube-type
- S-rated for speeds up to 112 mph, H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, W-rated for speeds up to 168 mph

PIRELLI

PIRELLI TIRES: PASSION AND PERFORMANCE

Because passion is as important as performance, Pirelli is a brand admired worldwide. From Formula 1, World Superbike, AMA Supercross, and World MX Championships – Pirelli's image inspires the imagination. Manufacturing tires at 23 factories located in 11 countries, Pirelli is the world leader in the field of tires for high-performance cars and motorcycle tires, for both original equipment and replacement. The Pirelli range includes tires for cars, motorcycles, scooters, bicycles and commercial vehicles, and among the company's strengths is its commitment to developing products with ever greater reliability and higher performance. Pirelli has 19 World Rally Championships and 62 World MX GP Championships. Pirelli Moto is the exclusive tire supplier for all the teams competing in the World Superbike and Supersport, British Superbike Series and Supersport Championships, and competes with top teams like Joe Gibbs Racing in the AMA Supercross Championship. Pirelli's investment and commitment as the spec-tire for World Superbike competition has led to numerous innovations that made their way into the Diablo™ family such as the Supercorsa, Rosso Corsa, Diablo Rosso II as well as the Angel GT multi-compound Extended Mileage Sport tire.

Diablo Rosso II Front/Rear

DIABLO ROSSO II

DIABLO ROSSO II

MULTI-COMPOUND SUPERSPORT TIRES

- Bi-Compound rear tire combining long lasting mileage with excellent grip at full lean
- Front tire's design is derived from the Diablo Rosso Corsa to provide improved drainage, better wear regularity and efficient braking
- Pirelli Enhanced Patch Technology (EPT) optimizing the contact patch for improved grip
- Functional Groove Design (FGD) to optimize wet behavior
- Slick shoulder area for maximum grip at full lean, providing confidence and top performance
- New 180/60ZR-17 size for 5.5" rims
- Blackwall
- Tubeless
- H-rated tires fit Honda CBR250RR and Kawasaki Ninja 250
- H-rated for speeds up to 130 mph, W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+ mph

PIRELLI

DIABLO SUPERCORSA SP V2

HYPERSPORT TIRES

- OE on many of today's leading hypersport bikes
- The new SP Version 2 features the same tread design currently used in the World Superstock 1000 championship
- High modulus fiber carcass offers a lower deformation ratio and makes the entire structure stiffer to allow a better synergy between compounds and carcass
- Single Element Tread Pattern permits a 24% larger slick shoulder area (vs. previous Diablo Supercorsa), increasing contact area and grip and wear regularity
- New compounds offer great balance of mileage and grip in an ultra-high-performance product
- Rear tire uses Pirelli's patented EPT (enhanced patch technology) matched with a tri-zone compound that helps optimize the contact patch for improved grip and handling
- 180/60ZR-17 size for 5.5" rims
- Dual compound rear
- Tubeless (TL)
- (W)-rated for speeds of 168+ mph

Diablo Scooter Front/Rear

DIABLO SCOOTER TIRES

PERFORMANCE SPORT SCOOTER TIRES

- Bias-ply and radial tires for sport-oriented scooters
- Tread pattern adapted from the Pirelli Diablo sport tire adds the best wet handling and dry grip while limiting road noise
- High-performance tread compound imported directly from Pirelli's sport-touring tires results in more mileage and regular wear
- Larger contact patch maximizes braking efficiency and traction in all weather conditions, increasing rider safety
- Radial tires are the only scooter tires with multi-ply carcass and patented 0° steel belt that aids in high-speed riding stability and cornering even with fully loaded vehicle
- Tubeless (TL)
- P-rated for speeds up to 93 mph, S-rated for speeds up to 112 mph or H-rated for speeds up to 130 mph

AVON TYRES

3D ULTRA SPORT
SPORT RADIAL TIRES

- Outstanding handling characteristics
- Large footprint at extreme lean angles
- New design wind-on belt material used in rear tire increases the footprint size at all lean angles to improve grip
- Multi compound with super-rich silica compound
- 3D siping with interlocking three-dimensional points to improve stability and grip, limit tread flex, and allow the tire to warm up quickly
- Triple Extrusion (TE) tread compounds – durable rubber material in the tire center to aid mileage, and softer compounds on the tire shoulder to aid grip; a third compound underneath binds all compounds to the tire to stay cooler and increase tire longevity
- Ideal for use on high-performance motorcycles; good balance of mileage versus grip
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

AVON TYRES

Storm 3D Front/Rear

STORM 3D X-M

- Performance plus extended mileage
- Delivers 15%-20% extra mileage compared to the current Storm range
- Interlocking three-dimensional points hidden in the sipes improve stability and grip, limit tread flex and allow the tire to warm up quickly
- High-performance single and multi-compound super-rich silica tread enhances wet grip (SRS)
- Superb handling and stability characteristics
- Ideal choice for today's high-performance sport-touring bikes
- Tubeless
- Blackwall
- V-rated for speeds up to 149 mph, or (W)-rated for speeds of 168+ mph

3D Ultra Xtreme Front/Rear

3D ULTRA XTREME

ULTRA HIGH-PERFORMANCE RADIAL TIRE

- Superb dry weather performance due to super-sticky rubber compound
- Very quick warmup to optimal operating temperature
- Large footprint at extreme lean angles
- 3D siping with interlocking three-dimensional points to improve stability, grip and limit tread flex
- Race compound
- New design of wind-on belt material used in rear tires increases tire footprint size at all lean angles to improve grip
- Recommended for trackday use
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

AVON TYRES

COBRA AV71

TRIKE TIRE

- Cobra AV71 tire made to fit GL1800 and Victory trikes with 18" front tires, or any custom trikes
- Snakeskin sidewall effect complements the Cobra logo and tread design; a truly unique custom look
- Features a flatter profile to resist wear
- Lifetime Profile Engineering (LPE) for consistent handling and stability for the full life of the tire
- Enhanced Aqua Flow (EAF) tread pattern gives optimal water dispersal
- Enhanced Stability System (ES) design reduces tire flex for improved grip and stability
- Tubeless
- V-rated for speeds up to 149 mph

130/70R16	63V	TL	0301-0566	$241.95

COBRA AV71/AV72

CRUISER/TOURING/CUSTOM TIRES

- Snakeskin sidewall effect complements the Cobra logo and tread design; a truly unique custom look
- Fits everything from Valkyries and Goldwings to Customs
- Advanced Variable Belt Density (A-VBD) rear construction uses a densely wrapped belt in the center of the tire for stability, wear and mileage; belt is less dense on the shoulder for a huge, compliant contact patch (most sizes)
- Force Following Grooves (FFG) for reduced tire noise, increased wear resistance, improved stability and better resistance to cupping
- Lifetime Profile Engineering (LPE) for consistent handling and stability for the full life of the tire
- Wide Custom Tread Arc (WCTA) tire profile for improved maneuverability at all speeds
- Enhanced Aqua Flow (EAF) tread pattern gives optimal water dispersal
- Enhanced Stability System (ES) design reduces tire flex for improved grip and stability
- Tubeless
- Blackwall (BLK) or whitewall (WWW) available in some sizes
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph or (W)-rated for speeds of 168+ mph

[1] Belted (non-radial) tire.
[2] Model-specific replacement tire for Honda GL1800 Gold Wing, Victory Ness/Tour/Crossroads/Cross Country/Vision/Hardball.
[3] Universal fitment front or rear.
[4] OE replacement for Triumph Thunderbird LT.

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

AVON TYRES

VENOM-R REAR RADIALS

- Advanced casing technology for low rolling resistance, cooler running and high mileage
- Unique sequential tread pattern produces a quiet ride
- Multi-arc tread contour for light, neutral turn-in and cornering stability
- 180/55R18 tire is narrow 177mm width, good for use on customs that have narrow clearance
- Large 330-series custom size tire features a built-in rim protector
- 330-series tire recommended rim size is 12", 11.5" rim size minimum and 12.25" rim size maximum; tire outside diameter is approximately 25.0" (634mm), tire outside width is approximately 13.0" (330mm)
- Tubeless
- Blackwall
- V-rated to speeds up to 149 mph

AM24 GRIPSTER

DUAL SPORT TIRES

- Performs equally well on highways and cross-country trails
- Deep tread pattern for long life and more grip
- Arrowhead tread pattern provides excellent self-cleaning ability
- Three-ply nylon construction
- Available in tubeless design; can also accept tubes
- Blackwall
- T-rated for speeds up to 118 mph

CONTINENTAL TIRE

Continental has been around for over 100 years and has a rich history in the motorcycle industry. Continental is Germany's largest tire manufacturer, fourth largest in the world and, having been founded in 1871 in Hanover, Germany, also one of the oldest. In 1956, Continental tires were on the first motorcycle that set the Land Speed Record at over 200 mph at Bonneville. Continental tires were on Bill Warner's motorcycle that set the Land Speed Record for a "sit-on" motorcycle at over 311 mph in 2011. These feats helped propel Continental into being one of the foremost motorcycle tire manufacturers in the world today.

CONTI SPORT ATTACK 2

HIGH-PERFORMANCE HYPERSPORT RADIAL TIRES

- Extraordinary light handling with outstanding grip and stability during cornering
- Exceptional control, riding performance, and optimal feedback when riding at the limit
- 0°-steel belt construction front and rear for higher stability and feedback when braking and accelerating out of corners
- "Black Chili" compound specially designed for supersport bikes consisting of highly structured racing black carbon for excellent cold grip and quick tire warm-up, grip resins for short braking distances and silica constituents for superior wet traction
- Multi-Grip Technology ensures high mileage and maximum grip in extreme lean angles up to 51°
- Traction Skin, a revolutionary tactile tread surface with a micro-roughness that optimizes the mechanical adhesion to the road, offering the safest and fastest tire break-in available
- Blackwall
- Tubeless
- (W)-rated for speeds over 168 mph

CONTI SPORT ATTACK

VALUE SPORT RADIAL TIRES

- Engineered to meet the demands of today's powerful high-performance sportbikes and naked muscle bikes
- 0° steel belt spooled onto a rayon base construction delivers the highest possible levels of grip, stability and control
- Ideal occasional track day tire
- Excellent grip in dry and wet conditions
- Excellent braking feedback
- Positive feedback at maximum lean angles
- Multi-Grip Technology features a single compound which is cured via a process to yield multiple compounds without the abrupt transitions lines between the compounds
- Continuous transition from center to shoulderequals smooth, predictable performance
- Reduced kickback under hard acceleration
- Stunning tread pattern to match today's sportbikes
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

Continental

CONTI ROAD ATTACK 2 EVO

THE EVOLUTION OF HYPER SPORT-TOURING

- The latest in compound and tread technology deliver radically improved mileage combined with a level of grip, safety and dynamics never known before in the hyper sport-touring market
- Tire "wet grip" compound with high silica content and functional tread design provide unsurpassed grip with the utmost in confidence when roads turn wet
- Increased tread depth translates to further increased mileage
- Traction Skin, the revolutionary new micro-roughness of the tread optimizes the mechanical adhesion and offers the safest, fastest break-in period in the market
- Multi-Grip Technology is a single compound that is used through a temperature controlled curing process delivers the benefits of a multi-compound tire without the abrupt transition between the different compounds that other multi-compound tires are known for
- 0° steel belted construction, improved stability, handling and control of the bike by using patented steel cord construction and a unique contour
- Blackwall
- Tubeless
- V-rated for speeds up to 149 mph, or (W)-rated for speeds of 168+ mph

CONTI ROAD ATTACK 2

HYPER SPORT-TOURING RADIAL TIRES

- Revolutionary new technology that offers a level of grip, confidence, mileage and dynamics never known before in the sport-touring radial market
- Features Continuous Compound Technology – this is the use of a single compound with a temperature-controlled curing process that delivers the benefits of a multi-compound tire: a wear-resistant center tread area for high mileage, increased shoulder tread area for improved grip, and a continuous transition from the center of the tire to the shoulder area for smooth, predictable performance
- "Black Chili" compound for quick warm-up, short braking distance and excellent grip on wet and dry roads
- Traction Skin, the revolutionary new micro-roughness of the tread, optimizes the mechanical adhesion and offers the fastest break-in period in the market
- Features DynamicRideTechnology, a patented steel belt construction with a unique contour to improve overall handling and control
- Road Attack 2 GT features special construction design of the carcass, which improves the stability and handling on heavy touring bikes
- Tubeless
- V-rated for speeds up to 149 mph, W-rated for speeds up to 168 mph, or (W)-rated for speeds over 168 mph

CONTI ATTACK SM

ADVANCED HIGH-PERFORMANCE SUPERMOTO TIRES

- Extraordinary light handling with outstanding grip curve stability
- Exceptional control of riding performance and optimal feedback in the limit range
- 0°-steel belt construction on the front and rear for higher stability and feedback when braking into and accelerating out of curves
- Good cold grip and quick tire warm-up through a newly developed "Black Chili" tread compound, specially designed for supermoto riding
- Approved Continuous Compound Technology ensures high mileage and maximum grip in extreme lean angles
- Traction Skin provides an extremely safe and short tire break-in
- Traction Skin provides revolutionary raw tread surface, the result of a mold-coating technology which eliminates the need for tire-release agents
- Blackwall
- Tubeless
- H-rated for speeds up to 130 mph

CLASSIC ATTACK

RADIAL UPGRADE TIRES FOR CLASSIC BIKES

- Brand new concept radial for the classic bike market
- Enhances and sharpens handling of a vintage/classic bike designed to run on bias ply tires to the level of a modern radial tire bike
- Perfect grip under all weather conditions
- Excellent mileage due to up-to-date compound technology
- Innovative tread pattern design for even wear and good water disbursement
- Improved carcass construction for easy handling and high levels of stability
- 0° steel-belted construction, front and rear, guarantees excellent stability at high speeds
- Multi-Grip Technology makes it possible to use a homogeneous grip grading with a single compound thanks to a temperature-controlled curing of the tire during the production process; Shoulder area: flexible for better grip; Zenith area: wear resistant for better mileage; Continuous transition
- Traction Skin provides an extremely safe and short tire break-in, which is possible due to the revolutionary raw tread surface – result of a new mold-coating technology which eliminates the need for tire-release agents
- Blackwall
- Tubeless
- V-rated for speeds up to 149 mph

TRAIL ATTACK 2

DUAL-SPORT RADIAL TIRES
90% ON-ROAD/10% OFF-ROAD

- Advanced adventure touring/dual-sport tire for large-capacity bikes
- Engineered to meet the demands of today's modern powerful, high-performance adventure touring/enduro machines
- 0° steel-belt construction on the rear tire delivers superior stability and comfort even at high cruising speeds and high loads
- Reinforced carcass on the front tire utilizes a newly designed tread pattern to ensure higher precision and optimized wear
- Improved touring compound offers high grip in all wet and dry conditions combined with excellent mileage for long trips
- Exceptionally quick warm-up time
- Stunning new tread pattern adapted from the Conti-Attack family
- Multi-Grip Technology makes it possible to use a homogeneous grip grading with a single compound thanks to a temperature-controlled curing of the tire during the production process; Shoulder area, flexible for better grip; Zenith area, wear resistant for better mileage; Continuous transition
- Traction Skin provides an extremely safe and short tire break-in which is possible due to the revolutionary raw tread surface; result of a new mold-coating technology which eliminates the need for tire-release agents
- Tubeless
- Blackwall
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, W-rated for speeds up to 168 mph

DRAG SPECIALTIES

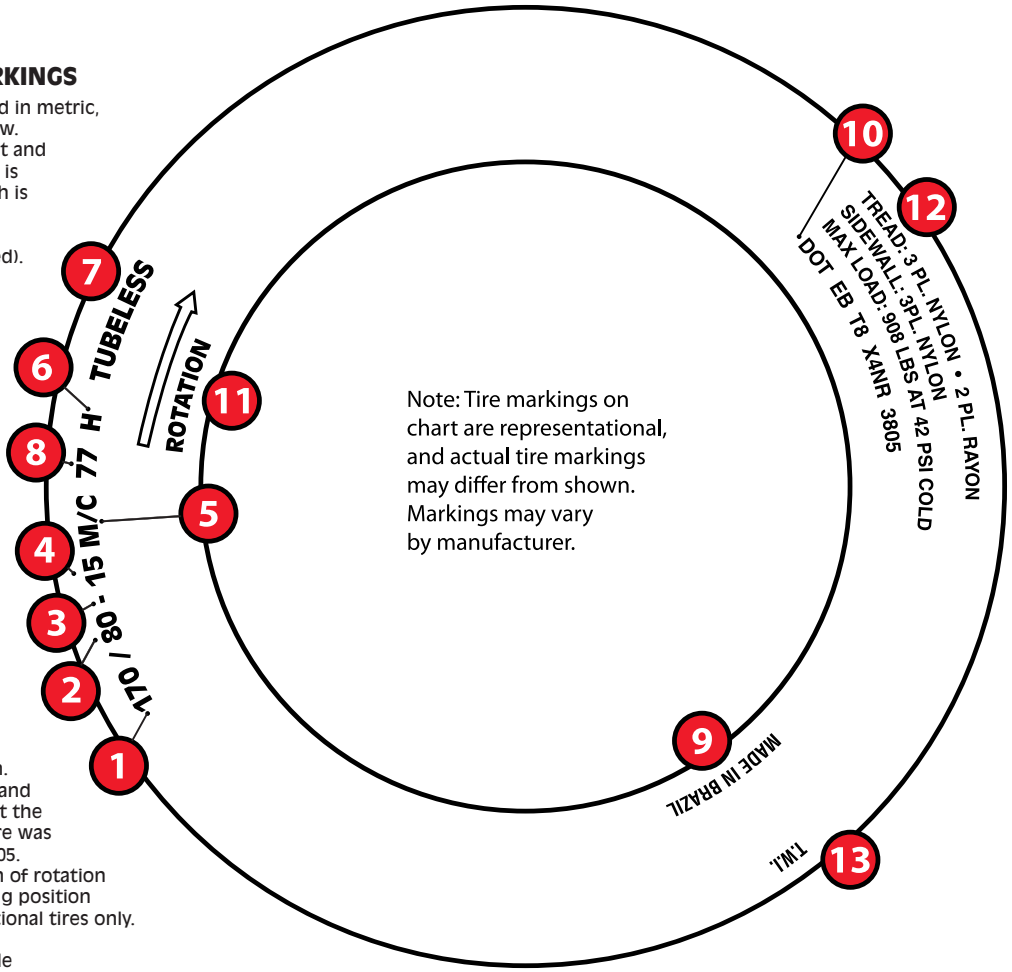

BASIC TIRE INFORMATION

SAFETY INFORMATION: THE FOLLOWING INFORMATION MUST BE GIVEN TO PURCHASING PERSONNEL, MOTORCYCLE TECHNICIANS, TIRE FITTERS AND CUSTOMERS.

TYPICAL TIRE MARKINGS

01 Nominal section width, expressed in metric, inch or alpha; see size chart below.
02 Ratio between tire section height and nominal section width. This ratio is not indicated when section width is expressed in inches (eg. 3.50-18).
03 Code for tire construction (- = Bias, R = Radial, B = Bias Belted).
04 Nominal rim diameter size in inches.
05 "Motorcycle" in abbreviated form. Differentiates motorcycle tires and rims from those designed for other vehicles. Shown on some models only.
06 Speed symbol. Indicates the tire's speed; see speed rating chart below.
07 Tubeless (TL) or tubetype (TT), as applicable.
08 Expresses the tire's maximum load capacity (pounds) at the pressure indicated (psi); see load index chart below.
09 Indicates where the tire was produced.
10 Abbreviation of "US Department of Transportation." Serves to indicate that the tire conforms to the regulations issued by the US Department of Transportation. Includes the serial # for the tire, and the last 3 or 4 numbers represent the date. Example 3805 means the tire was produced in the 38th week of 2005.
11 The arrows indicate the direction of rotation of the tire according to the fitting position (Front-rear); applicable for directional tires only.
12 Number of plies and material.
13 Tread Wear Indicator, as applicable

SPEED RATING CHART

	J	L	M	P	Q	R	S	T	H	V/VB	(V)/(VB)	W	(W)
MPH	62	74	81	93	100	106	112	118	130	149	149+	168	168+

LOAD INDEX CHART

SAFETY WARNING:

MAINTAIN RECOMMENDED TIRE PRESSURE AND FOLLOW OWNER'S MANUAL.

FAILURE TO FOLLOW MANUFACTURER'S RECOMMENDATIONS AND REQUIREMENTS CAN CAUSE TIRE FAILURE RESULTING IN SERIOUS INJURY OR DEATH.

ALL TIRES SHOULD BE MOUNTED ONLY BY TRAINED PERSONNEL. ONLY PROPERLY TRAINED PERSONNEL USING PROPER TOOLS AND SAFETY EQUIPMENT SHOULD UNDERTAKE MOUNTING OF TIRES AND THEY SHOULD FOLLOW RECOMMENDED PROCEDURES, ESPECIALLY FOR ATV/UTV TIRES, INCLUDING BUT NOT LIMITED TO THE FOLLOWING: (I) USE ONLY A CLIP-ON STYLE AIR CHUCK WITH A LONG EXTENSION HOSE, REMOTE FILLER AND INFLATION GAUGE; (II) USING A TIRE MOUNTING LUBRICANT, LUBE THE TIRE AND RIM BEAD SEAT; (III) THE TIRE AND WHEEL MUST BE LOCATED AWAY FROM ALL PERSONNEL USING A SOLID BARRIER LIKE A BLOCK WALL OR TIRE MOUNTING CAGE BETWEEN THE TIRE/WHEEL ASSEMBLY AND THE INSTALLER WITH THE TIRE/WHEEL ASSEMBLY BEING OUT OF "LINE OF SIGHT" DURING THE INFLATION PROCESS; (IV) DETERMINE THE TIRE'S MAXIMUM RECOMMENDED TIRE INFLATION PRESSURE; (V) REMOVE THE VALVE CORE FROM THE VALVE, INFLATE THE TIRE UNTIL THE BEADS' SEAT SNAP OR UNTIL THE MANUFACTURER'S MAXIMUM RECOMMENDED TIRE PRESSURE IS REACHED BUT NEVER EXCEED THE TIRE MANUFACTURER'S MAXIMUM PRESSURE; (VI) IF THE TIRE BEADS DO NOT SNAP, STOP AND RELEASE ALL AIR FROM THE TIRE/WHEEL ASSEMBLY AND CALL THE MANUFACTURER FOR HELP; (VII) ONCE THE TIRE BEAD IS SEATED, DISCONNECT THE CHUCK, RE-INSTALL THE VALVE CORE AND INFLATE TO PROPER OPERATING PRESSURE.

All part numbers in **BOLD MAGENTA** are new this year.

DRAG SPECIALTIES TIRE SIZE APPLICATION GUIDE

• Tires in this guide are listed in order, sorted by rim diameter (small to large), overall section width/aspect ratio, market application and front and/or rear applications. Simply find the size, front or rear and market application of tire for your vehicle.

The Application corresponds to the following codes:

CRS/TOUR – Cruiser bike/touring bike applications
DUALSPORT – Dual sport/adventure touring applications
CUSTOM – Cruiser/custom bikes
GEN – Commuting/general all-purpose street tire
OEM – OE replacement tire as suggested by the manufacturer
RACE – High-performance track/street
SIDECAR – General-purpose sidecar applications
SPORT – Sport riding/performance tire
SPRTNG – Sport-touring
SPRSPRT – Sport riding/track day tire
NWS – Narrow white stripe sidewall
WS – White stripe sidewall
WWW – Wide white wall

NOTE: The information provided here is not warranted as to the truth or accuracy by Drag Specialties or its parent company, LeMans Corporation. The information is collected from the tire manufacturer and published for your reference. Any additional information or questions regarding this information or questions about the fitment and maintenance of the tires should be obtained from the tire manufacturers.

DRAG SPECIALTIES TIRE SIZE APPLICATION GUIDE continued on next page

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

ACCELERATE YOUR SOUL

DUNLOP TIRES

- For nearly 30 years, Dunlop has provided tires for Harley-Davidson® – and more importantly, for Harley-Davidson® owners – that help Harley riders enjoy their bikes to the fullest. Dunlop's commitment to Harley-Davidson® riders grows even deeper with the introduction of the American Elite line of aftermarket tires, which incorporates Dunlop's exclusive Made-in-America experience, along with MT Multi-Tread technology to help deliver impressive mileage and handling.

American Elite Front/Rear | **American Elite NWS Front/Rear** | **American Elite WWW Front/Rear**

AMERICAN ELITE™
PREMIUM REPLACEMENT TOURING TIRES

MT MULTI-TREAD
MADE IN THE U.S.A.

- High mileage premium replacement tires
- The only replacement motorcycle tire for Harley-Davidson® bikes that is designed in America, made in America and tested in America
- Dunlop's decades-long engineering experience with H-D bikes is the foundation for the Dunlop American Elite line of replacement tires
- Tread design provides even tread wear and quiet operation in all conditions, both wet and dry
- Rear tires built with Multi-Tread Compound technology with long-wearing center compound and lateral-grip shoulder compounds for enhanced cornering performance, class leading grip and feel
- Tubeless
- Available in blackwall (BLK), narrow white stripe (NWS) and wide whitewall (WWW) for select applications
- Made in the U.S.A.
- H-rated for speeds up to 130 mph or V-rated for speeds up to 149 mph

SPORTMAX Q3 CARBON FIBER TECHNOLOGY
IRP INTUITIVE RESPONSE PROFILE
MT MULTI-TREAD

SPORTMAX® Q3 RADIALS

- Features Carbon Fiber Technology (CFT)
- Exhibits exceptional cornering stability, especially at high lean angles, responsive and precise steering characteristics, and predictable, smooth transitional-steering performance and impressive performance in dry conditions as a result of CFT
- New tread pattern utilizes Dunlop's cosecant-curve but with fewer grooves that are longer-track-proven to greatly enhance wet-weather performance
- Incorporates MT Multi-Tread technology providing a cool-running, long-wearing compound in the center for long tread life, enhanced straight-line stability and excellent traction, while the sides feature lateral grip compounds to enhance traction at moderate-to-maximum lean angles
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

Roadsmart II Front/Rear

ROADSMART® II

MT MULTI-TREAD

- Sportmax® Roadsmart II takes the sport touring tire goals of mileage, sport handling, and wet grip to the next level
- Front and rear tread patterns feature long lateral grooves to provide excellent water drainage on wet surfaces
- Multi-directional sub grooves optimize contact pressure for long mileage, even wear and good water drainage
- Rear tire features Dunlop's MT Multi-Tread construction
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

MICHELIN

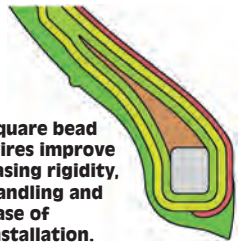

Conventional 71-thread ply

Commander II 90-thread ply is 25% more dense than conventional plies

Square bead wires improve casing rigidity, handling and ease of installation.

Commander II® Front/Rear

COMMANDER II

COMMANDER II®

CRUISER TIRES

- Michelin states, "Provides nearly twice the mileage of competitive cruiser tires (based on independent testing)"
- Radically different tread pattern for head-turning looks; premium sidewall treatment complements cruiser styling
- All-new rubber compounds provide remarkable wet grip without compromising durability
- Square bead wires improve casing rigidity, handling and ease of installation
- Amplified Density Technology, a highly dense, more-rigid tire casing, helps deliver excellent feedback and handling
- Commander II tires designed for dramatically extended mileage and feature Aramid tread plies to resist centrifugal growth, reduce weight and provide excellent stability
- Blackwall
- Tubeless (TL) or Tube Type (TT)
- H-rated for speeds up to 130 mph; V-rated for speeds up to 149 mph; W-rated for speeds up to 168 mph

MICHELIN POWER SuperSport Evo

POWER SUPERSPORT EVO

- Excellent handling from an optimized front tire profile that improves feel and confidence
- 2CT (Two Compound Technology) front tire construction
- Rear tire features new 2CT+ compound technology for added stability and handling even at full lean
- Incorporates ACT (Adaptive Casing Technology) developed from Michelin race tires
- Outstanding grip in wet or dry conditions
- Adaptable low-pressure tire casing ensures a larger contact patch for added grip and higher performance when used on race tracks
- Blackwall
- Tubeless (TL)
- (W)-rated for speeds of 168+ mph

METZELER
SHARING INDEPENDENCE

METZELER MOTORCYCLE TIRES: 150 YEARS OF PERFORMANCE

In its 150 year history, Metzeler has always satisfied the needs of the motorcycle rider with German innovation and technological prowess. Metzeler has proven it again for the V-Twin world with the launching of the all-new ME888 Marathon Ultra, now in Whitewall for those riders wanting a classic look. Through the use of the latest in tire design and compounding technology, Metzeler has created a tire that satisfies the demands of the modern day V-Twin owners. Delivering mileage that is equivalent to, and in some cases greater than any motorcycle tire on the market, the ME 888 does so without compromising performance that Metzeler riders demand. The new ME888 Marathon Ultra, ultra mileage, no excuses.

For custom and unique sizing, Metzeler continues to offer the ME 880 Marathon. The ME 880 has been the tire upgrade choice for many years for V-Twin riders across North America and around the world. No other tire company has the fitment range and tested upgrade choices offered in the ME880 line. As always, our best spokespeople are our customers. The next time you see someone running Metzeler tires on their motorcycle, ask them about the difference our technology has made for their riding enjoyment.

METZELER
SHARING INDEPENDENCE

ME880 MARATHON – HIGH MILEAGE CRUISER TOURING TIRES FOR GENERAL REPLACEMENT AND MODEL-SPECIFIC APPLICATIONS

- Premium line dedicated to cruiser and heavy touring bikes, featuring high-tech construction not found in other cruiser tires
- Machine-specific carcass construction for exceptional riding comfort and stability at all speeds, even under heavy load
- Built to handle the higher loads and handling characteristics of cruiser and touring bikes
- Front tires feature rounded tread profile for smooth, neutral steering
- Rear tires feature flatter tread profile and larger contact patch for better traction and mileage
- Computer-designed tread pattern with offset groove alignment for uniform wear characteristics, low noise
- Tread pattern has excellent water displacement ability and stability over rain grooves and under hard braking
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, (V)-rated for speeds up to 168 mph

ME880 XXL Front/Rear

ME880 XXL CUSTOM

- The ME880 is the fastest and most affordable way to upgrade your American V-twin
- ME880 continues to be the tire choice of the world's top custom builders
- Most ME880 radials feature the patented 0° steel-belt technology
- The latest in silica compounding delivers phenomenal wet grip
- Please see the upgrade chart below for sizing
- ME880's unique tread design prevents the wandering and following of rain grooves
- Blackwall
- Tubeless (TL)
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, (V)-rated for speeds of 149+ mph, W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+ mph

NOTE: It is not recommended that a radial front tire be used with a bias-ply rear tire.

Lasertec

LASERTEC – SPORT TOURING BIAS TIRES

- Proven tread patterns for all-weather riding
- Tread pattern design provides excellent water drainage that reduces hydroplaning, enhancing wet performance for safe riding in all weather conditions
- Compounds ensure higher braking performance on both wet and dry surfaces
- Classic tread pattern is designed to prevent irregular wear and cupping
- Multiple-Radius Contour Design is tuned specifically for the bias-tire touring segment and provides radial-type handling
- High silica content of the compounds helps provide outstanding grip in all weather conditions and reduces rolling resistance to improve mileage
- Blackwall
- Tubeless (TL)
- H-rated for speeds up to 130 mph or (V)-rated to 149+ mph

3 "tension zones"

Roadtec Z8 Front/Rear

ROADTEC Z8 INTERACT™ – SPORT TOURING TIRES

- Rear tires feature Metzeler multi-zone compound
- The Roadtec Z8 Interact also incorporates three tensions zones to provide best in-segment mileage and optimal wet performance throughout the tire's life thanks to an innovative tread pattern, a widened and more elliptical footprint, and a host of wear-resistant technologies not normally seen in motorcycle tires
- New O-spec replacment for BMW K 1600 GT and K 1600 GTL
- Everything about the new Roadtec Z8 Interact™ has been designed to put the rider in control; it responds like an extension of the rider's instincts, creating an invigorating blend of precise riding feel and effortless handling
- High-silica compound with nano-particles increases performance and safety in all weather conditions
- All-new profile matched with new patented tread design provides easy handling and reduced push steering for maximum confidence in all maneuvers
- A final footprint area 8% wider as compared to its predecessor
- O-Spec rears feature a 2-ply carcass for heavy sport-touring bikes
- M-Spec rears feature dual-compound construction
- Metzeler's patented tread pattern reduces front tire land-sea ratio to 11% and the rear tire land-sea ratio to 13%. Strategically placed longitudinal central grooves provide ideal drainage for more than ¾ of all lean angles in the wet. The remaining tread grooves work to add tread flexibility, extending the footprint for stability in the dry
- The updated design of the Roadtec Z8 improves wear regularity, which gives riders the benefit of a consistent riding performance across the tire's entire life
- Tubeless (TL)
- W-rated for speeds up to 168 mph or (W)-rated for speeds of 168+ mph

PIRELLI

PIRELLI TIRES: PASSION AND PERFORMANCE

Because passion is as important as performance, Pirelli is a brand admired worldwide. From Formula 1, World Superbike, AMA Supercross, and World MX Championships – Pirelli's image inspires the imagination. Manufacturing tires at 23 factories located in 11 countries, Pirelli is the world leader in the field of tires for high-performance cars and motorcycle tires, for both original equipment and replacement. The Pirelli range includes tires for cars, motorcycles, scooters, bicycles and commercial vehicles, and among the company's strengths is its commitment to developing products with ever greater reliability and higher performance.
Pirelli has 19 World Rally Championships and 62 World MX GP Championships. Pirelli Moto is the exclusive tire supplier for all the teams competing in the World Superbike and Supersport, British Superbike Series and Supersport Championships, and competes with top teams like Joe Gibbs Racing in the AMA Supercross Championship. Pirelli's investment and commitment as the spec-tire for World Superbike competition has led to numerous innovations that made their way into the Diablo™ family such as the Supercorsa, Rosso Corsa, Diablo Rosso II as well as the Angel GT multi-compound Extended Mileage Sport tire.

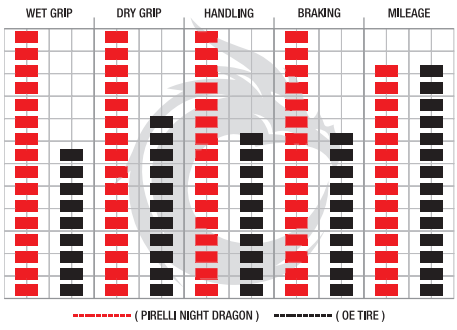

Night Dragon Front/Rear

NIGHT DRAGON

NIGHT DRAGON

PERFORMANCE CRUISER TOURING TIRES

- Pirelli's Night Dragon answers the modern cruiser rider's demands. Let a rider and his bike reach their full potential without sacrificing mileage
- Check out our new sizes for modern cruisers
- Utilizing Pirelli's DNA of performance, the Night Dragon is the modern tire for modern cruisers
- Record-setting land speed records with the cooperation of Klock Werks Kustom Cycles
- The Night Dragon increases not only wet and dry grip but gives you noticeably better handling on backroads and the interstate
- Modern tread pattern combines high-performance attributes and a great new style
- Outstanding grip at all lean angles
- Special compounds offer incredible straight-line acceleration and traction
- New structural designs provide great stability and comfort
- Tube/tubeless (TL); blackwall
- H-rated for speeds up to 130 mph; V-rated for speeds up to 149 mph; (V)-rated for speeds of 149+ mph; W-rated for speeds up to 168 mph; (W)-rated for speeds of 168+ mph

DIABLO ROSSO CORSA HIGH-PERFORMANCE TIRES

- Profiles and structures set the new benchmark, ensure high support while cornering and fast stand-up while accelerating out of the turn
- Feature Pirelli's patented EPT (Enhanced Patch Technology), matched with a three-zone compound, optimizes the contact patch for the best grip on the road and on the racetrack
- Pure racetrack performance combined with the comfort and predictability you expect from a high-performance street tire
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph (270+ kph)

Diablo Supersport Front/Rear

DIABLO

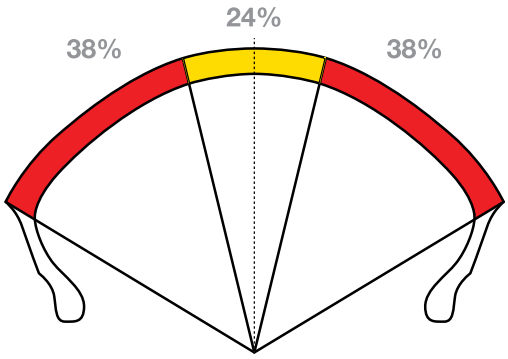

DIABLO – SUPER VALUE SUPERSPORT TIRES

- Supersport performance for any level of rider
- Fantastic dry grip and quick warm-up time thanks to a rear tread pattern optimized in the mid-crown and shoulder area
- Optimized Land/Sea ratio provides outstanding grip and traction in wet and dry conditions, plus improved tread wear and performance throughout the tire's life
- Silica-Silan matrix compound and multi-radius are some of the innovative R&D racing attributes engineered into the Diablo
- Blackwall
- Tubeless (TL)
- (W)-rated for speeds of 168+ mph

ANGEL GT

MULTI-COMPOUND

ANGEL GT

Angel GT Front/Rear

- Includes multi-compound technology from the World Superbike Championship on 160/60ZR17, 180/55ZR17, 190/50ZR17, 190/55ZR17
- "A Spec" rear tires denote a reinforced carcass for heavy-duty sport touring models
- Incorporates Pirelli's multi-compound technology derived from World Superbike Championship racing
- Extended Mileage Sport (EMS) – best in class for mileage and grip
- Improved wet grip performance
- Ideal for sport bikes that require increased mileage without sacrificing grip and traction
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

AVON TYRES

AV71 Front | AV71 WWW Front | AV72 Rear | AV72 WWW Rear

AV71/AV72 COBRA

- Features a snakeskin effect sidewall that complements the Cobra logo and tread design; a truly unique custom look
- Advanced Variable Belt Density (A-VBD) rear construction on most radial rears uses a densely-wrapped belt in the center of the tire for stability, wear and mileage, belt is less dense on the shoulder for a huge, compliant contact patch
- Force Following Grooves (FFG) for reduced tire noise, increased wear resistance, improved mileage, improved stability and better resistance to cupping
- Lifetime Profile Engineering (LPE) for consistent handling and stability for the full life of the tire
- Wide Custom Tread Arc (WCTA) tire profile for improved maneuverability at all speeds
- Enhanced Aqua Flow (EAF) tread pattern gives optimal water dispersal
- Enhanced Stability System (ES) design reduces tire flex for improved grip and stability
- Tubeless
- H-rated for speeds up to 130 mph; V-rated for speeds up to 149 mph or (W)-rated for speeds of 168+ mph

AVON TYRES

3D ULTRA SPORT RADIALS

- Outstanding handling characteristics
- Large footprint at extreme lean angles
- 3D siping with interlocking three-dimensional points to improve stability and grip, limit tread flex, and allow the tire to warm up quickly
- Multi-compound
- Triple Extrusion (TE) tread compounds – durable rubber material in the tire center to aid mileage, and softer compounds on the tire shoulder to aid grip; a third compound underneath binds the two compounds together for cooler running and increased longevity
- Ideal for use on high-performance motorcycles; good balance of mileage versus grip
- Blackwall
- Tubeless
- (W)-rated for speeds of 168+ mph

BRIDGESTONE

BATTLAX RS10 RACING STREET

HYPERSPORT/TRACK DAY TIRES

- High-performance sport radials optimized for high-grip and handling performance on dry surfaces
- Bridgestone's MotoGP development analysis was used to determine the placement of new 3-D tread grooves to improve stability, grip and handling by optimizing block stiffness
- Specially formulated rubber compounds front and rear offer sure grip as well as increased durability
- Front tire uses a Mono-Spiral Belt constructed with stiffer steel to enhance rigidity of the tread area for upgraded response and stability
- Rear profile enables a larger contact patch for improved grip in mid to high lean angles
- Cap and base on rear tire adds tread stiffness for stability when braking and accelerating
- Rear tire has softer sidewall construction incorporated for better damping to improve handling
- Rear is lighter than BT-003RS to lessen gyro effect for better handling
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

BATTLAX S20 EVO

HYPERSPORT/ULTRA-HIGH PERFORMANCE SPORT RADIALS

- Ultra-High performance radials improving upon the S20 to enhance handling performance and cornering using existing tread patterns with updated construction and rubber technology from MotoGP
- Handling and stability are improved by optimized stiffness of both front and rear tires
- Wear life is enhanced without losing performance of S20
- S20 EVO (front) has Dual Compound (3LC) technology plus a high strength belt package
- Rear tire re-introduces Triple Compound (5LC) technology originally introduced in the Battlax BT-016 to provide both good grip and wear life
- Rear tire center compound provides good stability, the shoulder compound transfers power to the road with strong traction and the edge compound offers high grip and a secure contact feel
- Rear grip is also enhanced by providing a compliant contact patch
- Other technologies used include: (MS-Belt) Mono-Spiral Belt, (HTSPC) High Tensile Super Penetrated Cord and Enhanced Bead Filler, to achieve high levels of all-around sport bike performance
- Tubeless
- Blackwall
- (W)-rated for speeds of 168+ mph

BATTLAX T30 SPORT TOURING RADIALS

- Sport Touring tires developed to replace BT-023 with wide-range riding enjoyment
- T30 offers improved handling with light feel, linear response and better dry grip
- New tread pattern supplies handling and grip improvements by utilizing optimized stiffness and contact patch features
- Updated Carcass Construction inspires confidence in cornering by providing increased footprint on the road, plus light, predictable handling and good line-holding
- New front rubber compound (rear is dual compound) developed using MotoGP analysis brings improved performance range of operating temperatures by utilizing RC polymer/NanoPro-Tech technology
- "GT" Spec available in five sizes (front has modified tread pattern) to suit heavyweight motorcycles
- Tubeless
- (W)-rated for speeds of 168+ mph

BRIDGESTONE

BATTLAX BT-016 PRO HYPERSPORT

BATTLAX BT-016 PRO HYPERSPORT

- Ultra-high-performance radials designed to maximize the performance of all sport bikes on the road today
- BT016 utilizes a multi-compound formulated with technology from Bridgestone's latest MotoGP technology ("Silica Rich EX", "RC Polymer"), for outstanding grip in all conditions
- Silica Rich contains a combination of two special components to improve dry/wet/life performance
- RC Polymer controls the change of properties of rubber in any temperature and assists the Silica effect
- Front: uses dual-compound to provide grip in all riding modes and the parallel S-shaped grooves provide optimal cornering force
- Rear: uses a double-compound to provide stronger traction and the L-shaped grooves enhance shock absorption
- 3-D-C.T.D.M. (Comprehensive Tire Design Method) is advanced tire design technology that enables dynamic, three-dimensional simulations of tire performance at all lean angles
- Includes good bump absorption, grip and stability during high-speed riding
- Tubeless
- W-rated for speeds up to 168 mph and (W)-rated for speeds of 168+ mph

BATTLAX BT-003 RACING STREET

BATTLAX BT-003RS

- Combination of MotoGP-derived multi-compound technology (3LC) and Ultraction Compound
- 3LC (dual compound) construction on both the front and rear tire
- Medium compound center for increased durability and soft compound shoulder for increased traction
- Ultraction compound ("Ultraction" stands for Ultra + Traction) applied in shoulder of front and rear tire achieves both powerful grip in braking and cornering plus high-intensity traction coming out of corners
- HTSPC-MSB (High Tensile Super Penetrated Cord - Mono Spiral Belt) technology in front and rear tire improves stability, bump absorption and reduces heat generation
- DOT approved hypersport street/track day tire
- Tubeless
- W-rated for speeds up to 168 mph

BATTLAX BT-45V

- Sport Touring Bias-Ply tires for mid-sized sport-touring bikes and older sport bikes
- Feature silica-enriched compound for wet and dry grip
- Dual Tread Compound (DTC) in the rear allows for longer mileage and better stability from center, while edges offer grip and performance while cornering
- Larger crown contributes to stability for high speed touring
- Innovative singular sidewall improves shock absorption and neutralizes handling
- Tubeless; blackwall
- H-rated for speeds up to 130 mph or V-rated for speeds up to 149 mph

Continental

CONTI MOTION

- Sport touring all-season radial with high-end performance at a lower price
- Ideal for entry-level riders and economic-minded veterans
- Offers safe, reliable feedback on dry or wet roads
- Newly formulated polymers in the compound deliver an impressive cost/mileage ratio
- 0° steel-belt construction for improved stability and a smooth ride
- Tubeless
- (W)-rated for speeds over 168 mph

CONTI SPORT ATTACK 2

- Extraordinary light handling with outstanding grip and stability during cornering
- Exceptional control, riding performance, and optimal feedback when riding at the limit
- 0°-steel belt construction front and rear for higher stability and feedback when braking and accelerating out of corners
- "Black Chili" compound specially designed for supersport bikes consisting of highly structured racing black carbon for excellent cold grip and quick tire warm-up, grip resins for short braking distances and silica constituents for superior wet traction
- Multi-Grip Technology ensures high mileage and maximum grip in extreme lean angles up to 51°
- Traction Skin, a revolutionary tactile tread surface with a micro-roughness that optimizes the mechanical adhesion to the road, offering the safest and fastest tire break-in available
- Tubeless
- (W)-rated for speeds over 168 mph

CONTI ROAD ATTACK 2

- Revolutionary new technology that offers a level of grip, confidence, mileage and dynamics never known before in the sport-touring radial market
- Multi-Grip Technology – a single compound is used that through a temperature-controlled curing process delivers the benefits of a multi-compound tire without the abrupt transition between the different compounds that other multi-compound tires are known for; Center Tread Area, wear resistant = Mileage; Shoulder Tread Area = Increased grip from center to shoulder; Continuous Transition from Center to Shoulder = Smooth and predictable performance
- "Black Chili" compound for quick warm-up, short braking distance on wet and dry roads
- Traction Skin, the revolutionary new micro-toughness of the tread, optimizes the mechanical adhesion and offers the fastest break-in period in the market
- Features DynamicRideTechnology, a patented steel belt construction with a unique contour to improve overall handling and control
- Tubeless
- (W)-rated for speeds over 168 mph

HF296A Front/Rear

DURO

HF296 DURO BLVD

- Premium-quality cruiser or touring tire
- Stronger, lighter weight tire with higher thread-cord count in a cross-ply reinforced arrangement
- Heavy-load capacity and deep water-shedding grooves will satisfy the most demanding rider
- Tubeless
- Blackwall
- H-rated for speeds up to 130 mph

TIRE SIZE APPLICATION GUIDE

•The following guide shows all available tires for off-road applications. Tires in this guide are listed in order, sorted by rim diameter (small to large), overall section width/aspect ratio and market application. Simply find the size and market application of tire for your vehicle.

The Application corresponds to the following codes:

Dual-Sport – Dual-sport/highway applications
Mini – Minicycle Motocross / Off-road applications
Motocross – Motocross/off-road applications
Sand – Tread and compound for sand applications
Trials – Tread and compound for trials competition and trail applications

NOTE: The information provided here is not warranted as to the truth or accuracy by Parts Unlimited or its parent company, LeMans Corporation. The information is collected from the tire manufacturer and published for your reference. Any additional information or questions regarding this information or questions about the fitment and maintenance of the tires should be obtained from the tire manufacturers.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

TIRE SIZE APPLICATION GUIDE continued on next page

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

DUNLOP
ACCELERATE YOUR SOUL

DUNLOP (R) OFFROAD TIRES

Over the past year, Dunlop has completely revamped its entire off-road and motocross tire line. The new Geomax® line benefits from racing development, and offers new technology to excel in a variety of conditions. At Dunlop, we don't race just to win. The knowledge we gain from racing allows us to develop technology that we pass along to our consumers.

Thanks to this advanced technology, the Geomax line allows fewer products to cover a wider span of terrain and riding applications. That broad-ranging versatility makes it much easier for riders to choose the right tire.

For off-road riders, Dunlop's new Geomax AT81 and AT81 RC have proven themselves by winning races as well as the 2013 AMA National Enduro and GNCC championships.

On the motocross front, Dunlop's Geomax MX32 and MX52 tires continue to prove their performance advantage in professional Supercross and Motocross racing, dominating the 2014 Supercross series as well as the 2014 Motocross series to date. The MX32 and MX52 patterns won all but one 450 and 250 Monster Energy Supercross race in 2014.

The Geomax line covers everything from trail riding to off-road racing, Motocross and Supercross with the MX-series developed specifically for Motocross/Supercross, and the AT-series developed for off-road riding and racing.

GEOMAX MX52																																		

GEOMAX MX32 MX52

GEOMAX® MX32/MX52™ TIRES

- Derived from top-level AMA Supercross and Motocross racing
- Patented "block-within-a-block" knobs offer more progressive cornering action
- Enhanced handling and knob durability achieved through more flex, and less knob tearing through recess carcass design
- Superior bump absorption through damping control sidewall rubber compound and recess carcass design
- Front tire design provides enhanced grip and steering feel
- Superior grip in a wider variety of terrain

GEOMAX® AT81™

- The newest generation of off-road tires
- Provide more all-around performance
- New formula high wear-resistance tire compound offers enhance chipping, tearing and wear resistance
- Rear tread block shape and distribution plus DIRTuitive Grip Design (DGD) knobs help the tire penetrate through the surface dirt for extra traction
- Rear tire carcass has two nylon plies
- Lateral grooves on shoulder knobs provide additional biting edges and allow the knobs to be more flexible
- Rear center blocks are arranged inline to provide a larger contact patch for maximum traction
- "Plush pad" recess design between tread blocks enhances compliance for bump absorption and rider comfort

GEOMAX® MX11™

SAND/MUD TERRAIN TIRE

- Curved tread blocks create a turbine effect to provide enhanced traction and self-cleaning properties
- Recessed flex joints between tread blocks give tire improved compliance for enhanced traction and ride comfort
- Tread channels help enhance stability
- Curved backside blocks produce enhanced braking stability
- Thin profiled blocks help chisel through and penetrate sand surface for increased traction
- Center-cross design tread blocks provide enhanced straight-line traction, assist with lateral stability and provide block stiffness for strength and enhanced durability

TRAILMAX TR91

DUAL-SPORT/ADVENTURE TOURING TIRES

- Dual-purpose high-performance adventure touring tire
- Silica-fortified tread compound for enhanced traction and grip while helping to reduce rolling resistance
- V-shaped pattern with crossing grooves pull water quickly and effectively away from the tread contact patch
- Enhanced abrasion resistance yields higher mileage in on-highway usage, while the new tread block design provides enhanced wear resistance in off-road conditions
- Jointless Belt Technology utilizes a continuously wound belt that enables smooth performance at highway speeds, a more consistent contact patch and enhanced shock absorption
- H-rated for speeds up to 130 mph or V-rated for speeds up to 149 mph

S12 XC Front/Rear

M12 XC Front/Rear

S12 XC™/M12 XC™

SOFT TO INTERMEDIATE AND INTERMEDIATE TERRAIN TIRES

- Designed to maximize traction
- Newer rear rubber mixture improves durability by at least 25-30% over Michelin's S12 and M12 tires
- Larger-diameter beads and thicker bead filler area help make sidewalls more rigid than before, which improves feedback
- Additional thin casing ply under the tread helps improve traction and feel, and speeds warm-up time
- S12 XC soft to intermediate terrain tires feature tall, narrow knobs for mud penetration; front knobs turned 45° for mud evacuation
- M12 XC intermediate tires provide dependable traction and steering in mixed conditions and feature widely spaced knobs to shed mud quickly

MH3 Front/Rear

STARCROSS® LINEUP

SOFT TO INTERMEDIATE TERRAIN AND INTERMEDIATE TO HARD PACK TERRAIN TIRES

- Developed especially for serious racers
- Reversible tread pattern with a tread-wear indicator that clearly shows when to reverse the tire on the rim – when the "M" disappears, the tire can be turned around
- Mirror-image knobs provide equal traction in both directions on a wide range of terrain
- StarCross® MS3 features an M-block knob pattern with reinforced scoop-like knobs that are widely spaced
- StarCross® MH3 features massive knobs to resist chunking and reshaped side knobs for better grip
- Strong casings incorporate three cross-woven polyamide plies
- Staggered shoulder knobs for superb cornering action
- Super stiff sidewalls for high-impact shock absorption on landings
- Flexible tread minimizes rebound on rough tracks and helps keep tire in contact with the ground

MICHELIN

Starcross HP4 Front/Rear

STARCROSS® HP4

HARD PACK TIRES

- Developed especially for supercross and very hard-packed outdoor tracks
- Wider front tire provides a larger contact patch that enhances predictability in blue-groove conditions
- Taller, wider front casing provides greater air volume for absorbing hard landings
- Closely spaced, reinforced knobs help maximize contact patch and resist tearing and chunking on hard terrain and rocks
- Wave-like knob pattern on the rear enhances grip in dusty, hard-packed conditions

TRIAL LIGHT™

- Updated casing design improves lateral stability in corners compared with earlier Michelin trials tires
- Trial X Light™ rear is more than a pound lighter than its predecessor, reducing unsprung weight, for improved suspension response and maneuverability
- Compatible with low air-pressure settings; recommended pressures for trials use: 6 psi front, 5 psi rear
- Redesigned bead area increases sidewall rigidity to reduce tire movement on rim, even at very low air pressure
- Maximized Contact Patch casing for better grip on loose surfaces and when cornering
- More flexible tread area for better grip on obstacles and rocks

METZELER
SHARING INDEPENDENCE

MC 4
SOFT TERRAIN TIRES

- Metzeler's championship-winning dirt tires with excellent durability, handling and traction
- Designed to excel in soft to medium-hard conditions with a stable carcass and self-cleaning knob design
- Aggressive center knob pattern delivers excellent straight-line traction and braking
- Low-weight/high-strength carcass for stability, bump absorption and puncture resistance
- Offset side knobs for increased cornering traction
- Puts the power to the ground for great holeshots, straights and solid cornering

MC 5
INTERMEDIATE TERRAIN TIRES

- Metzeler's championship-winning dirt tires with excellent durability, handling and traction
- MC 5 front features widely spaced center knobs for good braking performance
- Tread design uses small knobs that are able to penetrate harder soil, combined with paddle-type knob position for good traction on loose soil
- Reinforced shoulder knobs give excellent grip under full lean
- Soft center area of tire provides good damping properties and feedback
- Rear tire uses solid center knobs in a row and intersected knobs in shoulder area for good traction on loose soil or sand
- Reinforced shoulder knobs allow controllable slides

MC 6
HARD TERRAIN TIRES

- Metzeler's championship-winning dirt tires with excellent durability, handling and traction
- Front tire features intersected knobs that provide grip for hard braking
- Widely spaced knobs can gear with track surface so tire won't slip, even on watered tracks
- Uniform knob distribution provides light handling and good feedback
- V-shaped knob orientation provides straight-line stability and helps tire resist following longitudinal grooves
- Rear tire has intersected center knobs for softer starting grip on hard pack
- Intersecting knobs in mid-shoulder area provide extra traction on smooth, hard surfaces
- Twin shoulder knobs provide constant grip and good control

PIRELLI

SCORPION MX: 62 WORLD MOTOCROSS CHAMPIONSHIPS

MX Soft (MXS) Front/Rear

MX SOFT (MXS)

- Pure-bred competition tire for deep sand and severe mud use
- Special directional rear paddle design with bridged tread provides excellent performance
- Front slightly wider for more flotation in soft terrain
- Soft terrain compounds mated with lightweight PET HMLS carcass
- Front tire tread pattern features directional V tread block design for excellent braking and cornering performance and DOT approved

MX Mid Soft Front/Rear

MX MID SOFT (MXMS)

- Provides superior straight line traction on a wide range of terrain
- Excellent durability with long knob life
- Excellent cornering traction and stability with optimum control
- Directional front design offers maximum braking, lateral grip in a wide variety of conditions and is DOT approved
- Excellent grip and predictability in different terrain
- 120/80-19 and 90/100-21 sizes for popular 4-stroke applications
- XC MS 18" rear is same pattern
- MXMS Mud rear provides excellent traction in supersoft conditions and is the perfect soft tire choice when an MXS is a bit too aggressive

MXMH 554 Front/Rear

SCORPION MXMH 554

- New design with tread patterns developed with input from Joe Gibbs Racing MX
- Carcass and compound designed for durability and high puncture resistance
- Reduced weight and optimized handling for high speed tracks with intermediate to hard terrain
- New dimpled knobs and tread pattern is optimized to increase grip and traction
- Excellent tire to recommend for riders who use one tire for most track conditions
- Reinforced middle and side knobs feature bridges for increased lateral bite

MX Hard (MXH) Front/Rear

MX HARD (MXH)

- Special tire designed specifically for hard pack conditions
- Special stiff carcass with PET textile cord to provide good damping performance, optimized stability, and improved puncture resistance
- Reduced center knob height to prevent knobs from bending under strong acceleration and to have a wider contact area for straight line and cornering grip
- Front tire knobs with different stiffness to guarantee strong braking and maximum lateral grip, also DOT approved

MXeXTra Front/Rear

MXeXTRa X/J MEDIUM-SOFT TO HARD TERRAIN

- Durable design provides traction on a wide range of conditions from medium-soft to hard terrain
- X series full-size tires feature new front and rear tread patterns with a reinforced bridged knob pattern for increased lateral bite and stability
- Mini sizes (J) keep the same tread pattern with a new sidewall/carcass design for improved performance for mid-soft to mid-hard terrain applications
- Wide knob spacing helps improve performance in both gravel and soft terrain
- Front tire is DOT approved

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

SCORPION MX HARD

MXH Front/Rear

SCORPION MXH
HARD TERRAIN MX TIRES

- Designed for hard-packed supercross and motocross tracks
- Front tire features reversible tread pattern to dial in best performance for intermediate or hard terrain
- Twin knobs allow high degree of flexibility while compound keeps their edges sharp
- Reinforced sidewall for puncture resistance, yet lightweight due to processing technique
- 120/80-19 and 90/100-21 sizes for popular 4-stroke applications
- Low-profile design for quick, precise steering

SCORPION MX EXTRA

Scorpion MXeXtra Front/Rear

SCORPION MXeXTra-X
MEDIUM-SOFT TO HARD TERRAIN TIRES

- The X series full-size tires feature front and rear tread patterns with a reinforced bridged knob pattern for increased lateral bite and stability
- Mini sizes (J) keep the same tread pattern with a new sidewall/carcass design for improved performance for mid-soft to mid-hard terrain applications
- Feature high durability and consistent performance
- Built with a high module carcass construction that provides maximum bump absorption and feel
- Provides traction on a wide range of conditions from hard to medium-soft terrain
- Best tire for any rider looking for a more durable, all-around tire

PIRELLI

SCORPION RALLY

DAKAR RALLY CHAMPIONSHIP-WINNING TIRES – DOT APPROVED

- Pirelli continues to develop high-performance, race-winning tires for the Scorpion family – the Scorpion Rally, which had a two-year development cycle, captured first and second place in the 2009 Dakar Rally
- The front knob layout of the Rally is designed to give directional stability, even during high-speed riding
- The rear knobs provide rotational traction for the most demanding terrains
- With an Advanced Mixing Process, the Scorpion Rally resists fatigue and has a long-life performance
- All of these components are complemented by an innovative tire structure that guarantees world-class performance with a tire that has a high resistance to puncture
- DOT-approved front and rear; R rated for speeds up to 106 mph

M403 FRONT/M404 REAR

INTERMEDIATE TERRAIN TIRES

- Bridgestone's broadest range of motocross and off-road tires
- Features rubber compounds, tread design patterns and fine-tuned casing constructions that are race proven
- Derived from top factory SX/MX and off-road racing technologies
- The tires are more durable and cover a wider range of soils
- Front tires provide improved cornering control and feedback even at full-lean angles
- Rear tires offer added traction and slide control for better acceleration out of corners

BRIDGESTONE

M603 FRONT/M604 REAR

INTERMEDIATE TO HARD TERRAIN TIRES

- M603 (front) features a mid-chamber basin that provides flexibility and plant without sacrificing the stiffness of the tread block
- Each block will adapt to the ground surface to give an improved balance of lean grip, straight drive stability and light handling
- M604 (rear) has a broad-range pattern which cuts through loose terrain to find traction and grip on a firm base
- The improved grip and traction adapts to the high power and torque of current 4-stroke engines

BATTLECROSS X30

INTERMEDIATE TERRAIN TIRES

- Available in most big bike sizes (6 sizes)
- Front tire features Asymmetric Block Pattern which optimizes block placement to achieve stable grip under braking and cornering
- Rear tire features Cooling Fins for better heat dispersion which offer more consistent performance
- Convex "Castle Block" (rear) offers enhanced traction under acceleration and braking
- Improved grip in all conditions
- Crosses well between soft, intermediate and hard terrain

TKC 70 Front/Rear

TKC 70

60% ON/40% OFF-ROAD ADVENTURE TIRES

- Combines rugged off-road ability with balanced street performance
- Select sizes feature radial tire construction in a off-road use trail tire
- Unique tread block pattern makes this tire quiet and stable on the road
- Agile on asphalt or gravel
- MultiGrip semi-dual tire compound technology allows different levels of tire "hardness" on the central tread and tire shoulder area for extended mileage and improved grip
- RainGrip technology provides outstanding wet-weather grip and short tire warm-up times
- High stability and low kickback from 0° steel belted construction
- Blackwall
- Tubeless (TL)
- T-rated for speeds up to 118 mph or V-rated for speeds up to 149 mph

TRAIL ATTACK 2

DUAL-SPORT RADIAL TIRES
90% ON-ROAD/10% OFF-ROAD

- Advanced adventure touring/dual-sport tire for large-capacity bikes
- Engineered to meet the demands of today's modern powerful, high-performance adventure touring/enduro machines
- 0° steel-belt construction on the rear tire delivers superior stability and comfort even at high cruising speeds and high loads
- Reinforced carcass on the front tire utilizes a newly designed tread pattern to ensure higher precision and optimized wear
- Improved touring compound offers high grip in all wet and dry conditions combined with excellent mileage for long trips
- Exceptionally quick warm-up time
- Stunning new tread pattern adapted from the Conti-Attack family
- Continuous Compound Technology makes it possible to use a homogeneous grip grading with a single compound thanks to a temperature-controlled curing of the tire during the production process
- –Shoulder area, flexible for better grip
- –Zenith area, wear resistant for better mileage
- –Continuous transition
- Traction Skin provides an extremely safe and short tire break-in which is possible due to the revolutionary raw tread surface; result of a new mold-coating technology which eliminates the need for tire-release agents
- Tubeless
- H-rated for speeds up to 130 mph, V-rated for speeds up to 149 mph, W-rated for speeds up to 168 mph

K780 SOUTHWICK II
SOFT TERRAIN TIRES

- Designed for sand and mud conditions
- Front and rear tread patterns offer tall knob depths for deep bite
- Large radius support at knob base reduces knob roll in soft areas with hard base
- Wide space between rows self-cleans tread even at slow speed
- Standard race compound allows for increased wear durability and also offers quick warm-up on cement start pads
- Lightweight 4-ply rated casing structure with reinforced sidewalls
- DOT approved front tire

ATV/UTV TIRE SIZE APPLICATION GUIDE

The following application guide shows all the options available when re-ordering ATV/UTV tires. Simply match the size of the tire you are replacing, find it in the chart and choose from all the options listed. For pricing, please see each respective brand listing.

The "STYLE" column corresponds with the following:

-AGRSV – Aggressive mud and snow conditions
-INT – Intermediate mud and snow conditions
-ASPH – Hard-surface use
-KNOB – Standard knobby style
-OEM – Original equipment manufacturer replacement
-SPORT – Sport performance
-SAND – Sand use only
-TURF – Turf applications

ATV/UTV TIRE SIZE APPLICATION GUIDE continued on next page.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

Swamp Fox

SWAMP FOX

AGGRESSIVE ALL-SEASON/ ALL-TERRAIN ATV TIRES

dirt mud snow

- Advanced tread design goes through the most difficult terrain without bogging down
- Computer-enhanced tread pattern for stability and traction at any speed
- Reduced weight and deep tread reduces stress on drivetrain parts
- Dimpled, reinforced lugs give more biting edges for exceptional grip on muddy and hard-pack surfaces
- Aggressive shoulder knobs add side bite in deep ruts and protect against punctures
- Includes stylish color hot patch
- Rugged 6-ply natural rubber compound for superior puncture resistance and maximum durability
- 5/8" tread depth

TURF TAMER CLASSIC
SPORT/GENERAL REPLACEMENT TIRE

- The ITP Turf Tamer Classic returns in two models; both utilize a strong, lightweight, 2-ply carcass
- Re-engineered to accommodate the characteristics of most 4-stroke sport quad models
- Proven dimpled knob design and an advanced tread compound delivers exceptional traction and longevity
- Unmatched durability, handling and ride

TURF TAMER CLASSIC MX

- Has the same features as the Turf Tamer Classic, and also features pre-grooved tread – an industry first
- Provides an extra degree of performance on loose, loamy track surfaces

SUG. RETAIL $101.95

ITP

XTR MUD LITE

MUD LITE XTR

XTREME TERRAIN RADIAL ATV TIRES

- The industry's first Xtreme Terrain Radial tire
- Combine the award-winning technology of the Mud Lite and 589 M/S tires to produce the smoothest riding mud tire on the market today
- Super aggressive tread design features deep, angled, grooved lugs to achieve an exceptional level of traction
- 6-ply tough yet light in weight
- Two diameters provide you with the ability to tailor a tire choice to your specific riding requirements
- 12" option is ideal for primarily muddy conditions, offering better flex and tire flotation
- Radial construction means the Mud Lite XTR rides smoothly and finds more traction than bias-ply tires because of a larger contact patch; a radial tire's footprint actually grows under load

TERRA CROSS R/T

TERRACROSS R/T XD

- The already successful TerraCross R/T tire is now even tougher
- Extreme Duty construction translates into an extra sidewall ply along with increased sidewall and tread rubber thickness for even better puncture protection
- Special rubber compound is constructed of an extended-wear formula for incredibly long tread life
- 14" tires are UTV rated at 1,000-lb. maximum load capacity per tire at 12 psi; 12" tires are now also UTV rated
- Features exceptional traction and flotation due to interlocking non-directional tread pattern and wide footprint
- Radial construction makes for better control and smoother riding
- Wraparound shoulder lugs protect sidewall and offer great traction when riding on rutted trails
- 6-ply rating

Holeshot

HOLESHOT ATR

ALL-TERRAIN RADIAL ATV TIRES

- ITP's first radial all-terrain tire
- Combines legendary Holeshot performance with all the benefits of radial tire design
- Amazingly smooth ride quality due to more flexible sidewalls
- Increased traction over variable trail conditions because of its larger contact patch
- Lower profile produces better cornering characteristics
- Tough 6-ply rating makes it extremely durable

Bajacross Rear/Front

BAJACROSS
ATV/UTV TIRES

- ITP's most rugged and durable tire, the Bajacross is proven to handle the toughest and heaviest UTV applications
- 8-ply rating and 25% stronger construction
- Highest mileage of any ITP tire
- Extended-life rubber compound along with a unique overlapping tread pattern delivers a smooth ride with very little wear
- Lugs are stepped to keep consistent, predictable edges as the tire wears
- Wraparound lugs increase shoulder protection

XTREME DUTY ATV TIRES

- Re-engineered to handle the most extreme trail conditions possible
- Wider than other trail riding and racing tires to help climb out and stay out of ruts
- Stepped shoulder knob design offers an additional degree of side bite and rut control
- Surprisingly light with unmatched puncture resistance
- Tough 6-ply rating makes it extremely durable

Holeshot SR Front/Rear

HOLESHOT SR

SPORT RADIAL ATV TIRES

- A perfect marriage of Holeshot performance and the smooth ride of a radial
- Better traction and more comfortable ride over a bias-ply tire
- Dual-siped knobs dramatically increase acceleration on intermediate to hard surfaces
- Low profile and light weight provide MX-style handling
- Knobs are widely spaced to deliver predictable braking and sliding while providing great self-cleaning capabilities
- Long-wearing tread compound extends the life of the tire

Holeshot XCT Front/Rear

HOLESHOT XCT

DESERT/TRAIL ATV TIRES

- Special rim guard protects wheel and helps prevent air loss
- Designed to be the most puncture-resistant tires available
- Holeshot XCT tires use the same heavy-duty sidewall design as Carlisle's six-time Grand National Cross Country Championship-winning XC tires and add a more aggressive tread pattern
- Taller size of XCT tires makes them the perfect sport/trail ATV combo
- 23" front is the only replacement for Polaris sport models

The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

QUADCROSS MX2

- All-new tread design utilizing the distinctive QuadCross tread optimizes traction control and offers precise steering on hard to intermediate track conditions
- Specially designed tire carcass inspires confidence by offering an industry leading balance of compliance and feedback
- Available in a standard and deep-tread version
- Deep-tread version optimizes traction control and offers precise steering on intermediate to loose, loamy track conditions while decreasing braking distance

QUADCROSS MX PRO LITE

MOTOCROSS ATV TIRES

- The evolution of the popular Quadcross MX Pro, the MX Pro Lite is one pound lighter in front and two pounds lighter in back
- Tested and developed with the Kawasaki and Yamaha factory race teams
- Designed for use on hard-packed, blue groove motocross tracks
- Shoulder profile offers greatly improved cornering predictability and side-bite
- Dimpled knob design offers tremendous traction while accelerating, cornering and braking
- Special rubber compound offers incredible grip with extended wear characteristics
- 2-ply carcass uses a sidewall apex design that stiffens the sidewall during side loads without sacrificing ride quality; delivers better acceleration, braking, cornering, balance and feel
- Front tires have a dual-ribbed knob pattern for a light feel, less lateral roll and improved handling

QUADCROSS MX PRO

MOTOCROSS ATV TIRES

- The newly designed Quadcross MX Pro reaches a new level of performance for motocross race tires; tested and developed with the Kawasaki and Yamaha factory race teams
- Designed for use on hard-packed, blue groove motocross tracks
- Shoulder profile has been redesigned from the original Quadcross MX to offer greatly improved cornering predictability and side-bite
- Dimpled knob design offers tremendous traction while accelerating, cornering and braking
- Special rubber compound is soft for impressive acceleration and braking, but delivers the durability of a much harder rubber
- Front tires have a dual-ribbed knob pattern for a light feel, less lateral roll and improved handling

All part numbers in **BOLD MAGENTA** are new this year.

QUADCROSS XC

CROSS-COUNTRY TIRES

- All the great features of the Quadcross MX Pro with extra strength and larger sizing required for cross-country riding
- Shoulder profile offers greatly improved cornering predictability and side-bite
- Dimpled knob design offers tremendous traction while accelerating, cornering and braking
- Special rubber compound offers incredible grip with extended wear characteristics
- Tough 6-ply carcass offers high puncture resistance and impressive durability; design stiffens sidewall during side loads without sacrificing ride quality; delivers increased acceleration, braking, cornering and overall balance while reducing the bounce often found with knobby, cross-country tires

MU9C Coronado Front/Rear

MU9C CORONADO

ATV AND SIDE-BY-SIDE TIRES

- The Maxxis Coronado is the ultimate desert tire for your ATV or side-by-side
- Brutal desert terrains are no match for the Coronado's long-wearing compound, formulated for high speeds and high temperatures
- Strong 8-ply rated radial carcass soaks up the shock from rocks and sand whoops for ultimate control, and ensures maximum puncture resistance in the face of thorns and sharp rocks
- Aggressive tread pattern extends well over the shoulder area for increased sidewall protection and features stepped lugs to provide multiple biting edges
- Steering performance is maximized by a rounded front tire profile that hooks up on flat turns and stays in ruts when necessary
- Tread pattern features stepped lugs and a long-wearing compound optimized for loose-over-hard desert terrains
- Performance-matched front and rear setup provides steering control and confidence at high speeds
- A smooth ride stemming from true radial construction and a center tread configuration with a high land-to-sea ratio of lugs

CLINCHER

MULTI-TERRAIN ATV TIRES

- Radial construction offers a plush ride, absorbing jarring feedback from rocks, roots, braking bumps and other obstacles
- Larger contact patch than a bias ply tire keeps more rubber on the ground for greater traction
- Interlocking "C" design keeps the center tread rolling smooth over hard pack, while more aggressive shoulder knobs provide extra bite
- Smooth, predictable performance through a wide variety of conditions
- Non-directional tread pattern

[1] Sportsman XP 2009 is 5" wider with aftermarket wheels.
[2] Requires a lift kit if running 26" or larger tires.
[3] Uses lug nut PART #s 0232-0204 (black) and 0232-0203 (chrome).
[4] Grizzly 700 14-15 rear wheel applications will sit 2" wider than stock wheels.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

Machined

Glass Black

TYPE 387X
ATV/UTV WHEELS

- Built to meet the demands of the ATV/UTV market, Moose Utility Division is proud to introduce the 387X line of wheels
- Whether it is in the woods, deep mud or sand, the 387X is prepared to take it on
- All Moose wheels are 100% X-rayed on the production line to ensure quality and reliability
- Handles load capacities from 675 lbs. for the 12x7 and 14x7 front, to 1,150 lbs. for the 12x8 and 14x8 rear, which meet, or exceed all current market requirements
- Available in gloss black or machined finish with chrome center caps and rivets
- Center caps are included with each wheel, but lug nuts must be ordered separately

ALL 12" WHEELS SUG. RETAIL $79.95
ALL 14" WHEELS SUG. RETAIL $99.95
CENTER CAP (EA.) SUG. RETAIL $9.95
LUG NUTS (16-PK.) SUG. RETAIL $19.95

[3] If using 26" tires a 2" lift kit will be required.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

[2] Sportsman XP 09 is 5" wider with aftermarket wheels.

TYPE 158 BUCKSHOT WHEELS continued on next page

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

[5] Grizzly 700 14-15 rear wheel applications will sit 2" wider than stock wheels.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

Vision Wheel

14" TYPE 375 ATV/UTV WHEELS

- Engineered to be the toughest ATV/UTV wheel available
- Meet all OEM load capacities: 14" x 7" (front) rated at 675 lb. and 14" x 8" (rear) rated at 1,150 lb.
- Feature machined clear-coated finish with black windows
- Include center cap
- Meet SAE J2530 standards
- Must use Vision Wheel lug nuts; see chart

TYPE 375 WHEELS SUG. RETAIL $96.95

LUG NUTS (BOX OF 16) SUG. RETAIL $19.95

[1] Grizzly 700 14-15 rear wheel applications will sit 2" wider than stock wheels.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

AMS SPUN ALUMINUM WHEELS

STANDARD-LIP SPUN ALUMINUM WHEELS

- Lightweight, durable and attractive
- Constructed from .190 gauge T-6061 aluminum, heat treated for optimal strength, and polished to a high luster
- Precisely manufactured to maintain a consistent thickness across the profile of the wheel; ultradurable
- Lightweight (less rotating mass) for more available power and light, predictable steering
- Ideal for use in sand, competition and recreational use
- Available in 10x5, 9x9 and 10x8 sizes
- Come individually boxed

ROLLED-LIP SPUN ALUMINUM WHEELS

- All of the features of the standard lip wheel except these wheels have a rolled lip
- A more durable, impact-resistant wheel while remaining very light
- Rolled lip provides for easier tire mounting
- Polished or durable black powder-coat finish available
- Available in 10x5 and 9x8 sizes

[3] Not for Polaris or Yamaha models.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

UT ULTIMATE WHEELS

- Lightweight race wheels designed for the increased weight of today's utility ATVs and side-by-sides
- A load rating much higher than the competition
- Light enough for the sand yet strong enough for the trail
- The strongest of DWT's Sport series and is the optimal choice for a lightweight yet super strong wheel
- Specifically engineered for heavy duty ATV racing
- Designed by combining a reinforcement ring with DWT's exclusive hollow rolled-lip construction; the lightest way to reinforce the bead area
- .190 outer beadlock half; .190 inner rolled lip half; .190 reinforced center plate
- Tapered lug nut holes (lug nuts sold separately)
- Made in the U.S.A.

ROK-OUT JR FRONT WHEEL

- Perfect for the young ATV racer
- Just like the Rok-Out but made with .125" thick aluminum
- Hollow rolled lip construction is the lightest way to reinforce the vulnerable bead area
- Universal built-in patented Rock Guard which works with all stock front hubs and most aftermarket hubs and stiffens the wheel center
- Stops outside debris from entering and prevents damage to brake lines, caliper and wheel
- Eliminates stock OEM steel Rock Guard plates for further convenience and weight reduction
- Front wheel is 10x5 with offset 3+2 and bolt pattern 4/144

[1] Must use ITP lug nut; stock lug nut will not work.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

SEVERE DUTY (SD) BEADLOCK WHEELS

- The must-have racing wheels, especially when de-beading means the difference between getting there and getting back
- An advanced manufacturing process makes the aluminum alloy Severe Duty wheels incredibly lightweight and ultra-strong
- 14x7 wheels feature dual beadlock design – beadlock on both the inner and outer wheel lips, providing total tire security
- 12x7 wheels feature secure beadlock on the outer lip, and ITP's Rock Armor reinforced inner wheel lip
- All SD wheels include an authentic center cap
- Made using ITP's exclusive Advancecast process
- Available in 12x7 and 14x7
- Available with polished finish or new Black Ops matte black finish
- All wheel types include matching beadlock ring
- Lug nuts and center caps sold separately

12" WHEELS — **SUG. RETAIL $155.95**

14" WHEELS — **SUG. RETAIL $251.95**

[1] Require ITP lug nuts; stock lug nuts will not work.

Polished

Outer beadlock ring

Black

C-SERIES TYPE 7 BEADLOCK WHEELS

- All the benefits of beadlock design combined with the proven performance of the one-piece aluminum C-Series Type 7 wheel
- Outer beadlock ring clamps the tire to the wheel, greatly reducing the chance of tire debeading while riding with low tire pressure or encountering heavy side loads; ring also adds further stability to an already durable wheel
- Made using ITP's exclusive Advancecast process
- Available in 12x7 and 14x7
- Available with polished, chrome or black finish
- Each wheel comes with a polished outer beadlock ring
- Lug nuts and center caps sold separately; see page 299-301

12" WHEELS

SUG. RETAIL $199.95

14" WHEELS

SUG. RETAIL $252.95

SAFETY WARNING: For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.

All part numbers in **BOLD MAGENTA** are new this year.

T-9 PRO MOD

LIGHTWEIGHT ATV/UTV WHEELS

- The popular T-9 Pro series of spun aluminum wheels has been expanded to work with heavier ATVs and UTVs
- Off-road modular style and angled outer wheel face combine to add considerable strength to the wheel center without adding weight
- Lighter than the competition; reduced unsprung and rotating mass
- .19" wall construction
- Double-rolled lip
- Lug nuts sold separately; see page 299-301

NOTE: All applications require use of ITP lug nut; stock lug will not work.

GP T-9 Pro Series

Baja Series

T-9 PRO BAJA AND GP WHEELS

SUPER HEAVY-DUTY SPORT AND COMPETITION ATV WHEELS

GP T-9 PRO SERIES

- The next step in the T-9 Pro Series
- Designed with a double-rolled wheel for great durability
- Rolled lip is much stronger than standard wheel while remaining lighter
- Rolled outer edge eases tire mounting
- Available sizes are 9x8, 10x5 and 10x8
- Available with polished or black finish
- Lug nuts sold separately; see page 299-301

T-9 BAJA SERIES

- Designed with inner and outer reinforcing rings that are rolled in, not welded
- Design gives you a better wheel at a lower cost
- Amazingly light and still able to offer an extremely high level of strength
- Available sizes are 8x8.5, 9x9, 10x5 and 10x8
- Available with polished or black finish
- Lug nuts sold separately; see page 299-301

Outer beadlock rings

Polished

Black

T-9 PRO TRAC-LOCK WHEELS

- Competition-ready wheel that offers exceptional tire retention
- Lighter than ITP's Pro Lock with easier tire mounting and a lower price
- Features a 5mm (.190") wall with a strong, yet light, center
- Durable, double-roll inner lip
- Precision-formed outer bead retention ring; attached with recessed Allen bolts
- Available with polished or black finish
- Replacement polished and black outer beadlock rings available separately; sold each
- Lug nuts sold separately; see page 299-301

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

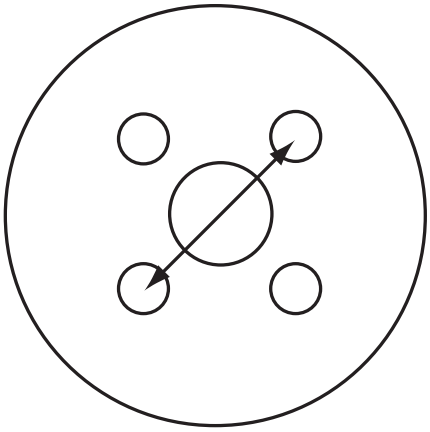

All part numbers in **BOLD MAGENTA** are new this year.

ATV WHEEL APPLICATION CHART

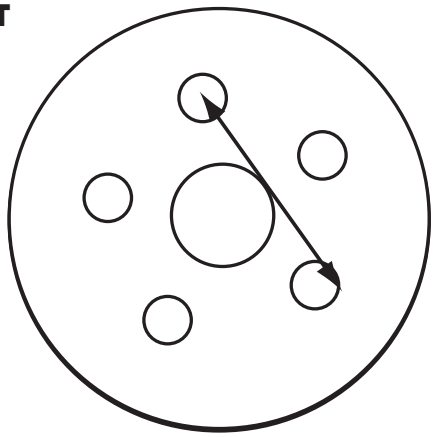

HOW TO MEASURE BOLT PATTERN

3-LUG – Middle of one hole to outside line across other two holes (example 3/100)

4-LUG – Middle of two holes directly across from one another (example 4/110)

5-LUG – Back of one hole to the center of the second hole (example 5/130) (NOTE: This is the easiest way we know to estimate the 5-lug bolt circle.)

[2] Add 1" width per side.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

MOOSE 901X/387X TIRE/WHEEL KITS

AGGRESSIVE ALL-SEASON/ ALL TERRAIN ATV/UTV TIRE/WHEEL KITS

- Kits combine the new Moose 901X tires mounted on the stylish and durable 387X wheels
- The Moose 901X, with its offset V tread design and side lugs, offers high performance in mud, snow and sand
- 6-ply construction for superior durability and puncture resistance
- Lugs are recessed in the center for added surface area for better traction
- Pebbled design in between the lugs makes for better clean-out between lugs when riding in sticky clay and mud
- All Moose wheels are 100% X-rayed on the production line to ensure quality and reliability
- Wheels handle load capacities from 675 lbs. for the 12x7 front, to 1,150 lbs. for the 12x8 rear, which meet, or exceed all current market requirements
- Front is 26 x 9-12, rears are 26 x 12-12
- Available in gloss black or machined finish with chrome center caps and rivets
- Center caps are included with each wheel, but lug nuts must be ordered separately

TERRACROSS R/T XD SS ALLOY 26"X14" TIRE/WHEEL KITS

AGGRESSIVE MUD/SNOW/TRAIL RADIAL TIRE/WHEEL KITS

- High-performance, Extreme Duty 14" Terracross tires matched with the impressive SS Alloy line of wheels
- Ideal for mud, snow and sand
- Front is 26x8R-14 (UTV front is 26x9R-14); rear is 26x11R-14
- Extreme Duty construction translates into an extra sidewall ply along with increased sidewall and tread rubber thickness for even better puncture protection
- Special rubber compound is constructed of an extended-wear formula for incredibly long tread life
- UTV rated at 1,000-lb. (453kg) maximum load capacity per tire at 12 psi
- Feature exceptional traction and flotation due to interlocking non-directional tread pattern and wide footprint
- Radial construction makes for better control and smoother riding
- Wraparound shoulder lugs protect sidewall and offer great traction when riding on rutted trails
- Tires are 6-ply rated
- Non-directional
- SS Alloy wheels are the strongest, lightest and best-looking wheels on the market; available in SS108, SS112, SS212 styles that feature a diamond-cut machined finish with black accents or a sleek satin black finish; SS312 features a satin black finish with machined accents
- Custom center cap included
- Lug nuts available separately; see page 299-301

BAJACROSS SS ALLOY 26"x14" TIRE/WHEEL KITS

- Kits combine the durability of Bajacross tires with light, strong and stylish SS Alloy wheels
- ITP's most rugged and durable tire, the Bajacross is proven to handle the toughest and heaviest ATV/UTV applications
- 8-ply rating and 25% stronger construction
- Highest mileage of any ITP tire
- Extended-life rubber compound along with a unique overlapping tread pattern delivers a smooth ride with very little wear
- Lugs are stepped to keep consistent, predictable edges as the tire wears
- Wraparound lugs increase shoulder protection
- Front is 26x10R-14; rear 26x11R-14
- SS Alloy wheels are the strongest, lightest and best-looking wheels on the market thanks to Advancecast process
- SS212 wheels feature a lustrous platinum finish; SS312 wheels feature a satin black finish with machined accents
- Custom wheel cap included
- Lug nuts available separately; see page 299-301

[1] Must use ITP lug nut; stock lug nut will not work.

SAFETY WARNING: **For information on tire care, safety, maintenance, mounting, manufacturer's warranty and other information consult tire manufacturer's publication(s) and/or website(s) for complete tire information. The tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment.**

All part numbers in **BOLD MAGENTA** are new this year.

MAYHEM SS ALLOY SS312 26"X12" TIRE/WHEEL KITS

SUPER AGGRESSIVE MUD/TRAIL TIRE/WHEEL KITS

- The nastiest, most aggressive mud/trail tire ever unleashed by ITP meets the most desirable wheel on the market
- Deep-lug tread pattern with an intimidating look; tears through mud holes and handles well on hard trails
- Lightweight carcass construction for improved comfort and handling
- Delivers tremendous bite for exceptional acceleration and braking
- Balanced cornering qualities
- Built to last with extended-wear rubber compound and 6-ply rating
- Attention-grabbing, embossed tribal artwork
- Front is 26x9-12; rear is 26x11-12
- SS Alloy SS312 wheels are the strongest, lightest and best-looking wheels on the market thanks to the Advancecast process; they feature a unique design and a satin black finish with machined accents
- Custom center cap included
- Lug nuts available separately; see pages 299-301

SAND STAR T-9 PRO MOD ATV/UTV TIRE/WHEEL KITS

DOUBLE-RIBBED FRONT/ANGLE PADDLE REAR SAND TIRE/WHEEL KITS

- The ultimate in sand tire technology meets the latest in the T-9 Pro series of wheels
- Front tires feature an innovative patent-pending dual-rib tread design that provides unmatched steering control; lightweight carcass provides maximum flotation
- Rear tires have an eight-paddle, 30mm, patent-pending dual-scoop design that features full width primary and eight mini-scoops for quicker hookup and maximum acceleration; lightweight, flexible carcass provides excellent flotation and less drivetrain drag
- Front is 26x9-12; rear is 26x11-12
- The popular T-9 Pro series of spun aluminum wheels has been expanded to work with heavier ATVs and UTVs with the T-9 Pro Mod
- Off-road modular style and angled outer wheel face combine to add considerable strength to the wheel center without adding weight
- Lighter than the competition; reduced unsprung and rotating mass
- .19" (4.8mm) wall construction
- Double-rolled lip
- Lug nuts available separately; see page 299-301

NOTE: All applications require use of ITP lug nut; stock lug will not work.

[1] A heavier tube reinforced to withstand the added stress from sliding the rear in corners.

All part numbers in **BOLD MAGENTA** are new this year.

BIB MOUSSE®

- Made from a multi-cellular butyl material, Bib Mousse replaces conventional tubes, providing a pressure equivalent of approximately 13 psi
- Specifically designed for off-road competition use, at speeds up to 80 mph (130 km/h) – above this speed, heat buildup can lead to rapid destruction of the Bib Mousse, resulting in serious injury to the rider – under no circumstances should Bib Mousse be fitted to motorcycles for on-road use
- Bib Mousse may be used only with Michelin off-road tires, including StarCross HP4, StarCross MS3, StarCross MH3, S12 XC, M12 XC and Desert Race – because Bib Mousse is shaped for a perfect fit inside these Michelin tires (see sizing chart below); use of Bib Mousse with other brands of tires can lead to handling instability and possible destruction of the Bib Mousse
- Each Bib Mousse includes a tube of Bib Mousse Fitting Gel; installer must be sure to follow installation instructions supplied with the product

SUG. RETAIL $164.95

MOUSSE TUBES

- Toroidal-shaped expanded-foam inserts replace the traditional inner tube on off-road motorcycles
- Technically the Mousse is a butyl ring with a honeycomb structure, the cells of which are filled with gas so as to simulate the effect of an inner tube
- The Mousse is surrounded by a thin external membrane designed to make it easy to fit on different sized tires
- A Pirelli Mousse is a technologically advanced product, characterized by the presence of self-pressurizing agents capable of creating a very large number of gas bubbles inside the mousse, making the product immune to punctures
- Immune to punctures and abrasions; developed by Pirelli for riders who compete in every kind of competition, whether it be a race in the desert or a Cross championship trial
- Designed for use with Pirelli tires on off-road surfaces
- Not recommended for road use
- When new, they are equivalent to an inner tube inflated to 0.9 bar (equivalent to approximately 13 PSI); this pressure declines gradually along the life of the mousse, which must be replaced when it becomes too soft
- Sold each, with mounting gel lube

RIM SIZE	FITS TIRE SIZE(S)	PART #	SUG. RETAIL
18"	110/100 - 140/80	0350-0179	$238.95

MAXXIS

TUBES

HEAVY-DUTY AND EXTRA HEAVY-DUTY

- Made specifically for MX or off-road use
- Heavy-duty tubes are 1.5mm thick to be more durable than standard tubes
- Extra heavy-duty tubes are 2.5mm thick to offer superb durability in extreme conditions; nearly twice as strong as heavy-duty tube
- Both use synthetic rubber construction that offers excellent strength and will not allow air to leak like natural rubber
- For Valve Stem Types, see page 303

MOOSE RACING

HEAVY-DUTY TUBES

- Heavy-duty tubes made specifically for off-road and motocross
- European made, these are the sturdiest, highest-quality tubes on the market
- 3mm thick natural rubber construction helps resist pinch flats
- TR-4 valve stems; for Valve Stem Types, see page 303

VALVE STEMS

0360-0033

- Right-angle valve stem makes inflating tires on dual disc wheels easy
- Angled valve stem is a direct 90° bend from the surface of the wheel rim
- Ends the hassle of wrestling the air chuck between the brake discs
- Made of lightweight aluminum for less weight
- Short valve stem is for use on rear wheels
- For use on most tubeless tire rims
- Sold individually

VALVE CORES

- Replacement valve cores
- Sold in a 4-pack

SUG. RETAIL $1.95

PART #	0360-0020

RIM LOCK AND VALVE STEM SEAL KIT

- Designed to effectively seal out dirt and moisture where they affect off-road wheels the most – at the valve and rim stems
- Aluminum rim-lock spacers and rubber valve stem grommets are custom contoured to allow even distribution of stress and seal out the elements
- Also includes two polished metal valve caps, one of which has a handy built-in valve stem remover
- Includes two of each: M8 Fuji nuts, aluminum rim lock spacers, rubber grommets and polished metal valve caps

SUG. RETAIL $9.95

PART #	0361-0065

VALVE STEM GROMMETS AND CAPS

- Durable rubber grommets are contoured to seal tightly around valve stems and seal out dirt and moisture which can cause friction, corrosion and flats
- Set of four grommets and four black plastic valve stem caps

SUG. RETAIL $4.95

PART #	0361-0064

TAPERED VALVE STEM CAPS

- Caps taper from 1/2" on the top to 3/8" on the bottom

Coarse Thread

Fine Thread

"PRO GOLD" ICE SCREWS

- Deep V-head design for the serious racer
- Large shank with coarse threads helps prevent screws from pulling out
- Heat-treated for long, sharp head life
- Coarse thread screws are designed to decrease pull-out from tires
- Fine thread screws are designed for better indexing in the tires
- Plating process maintains the sharpest head possible, creating a dark green color
- Sold in 250- or 1,000-piece bags in five lengths
- 1/4" head diameter
- Made in the U.S.A.; AMA approved

TWIST TIRE SCREWS

- Twist Gripper™ screws provide traction for heavy equipment and groomers
- High-grade carbon steel hex screws with a carbide insert and specially designed threads
- Zinc electroplated to extend the life of the screw with an anti-corrosive layer to stop oxidation
- All have extra-coarse threads giving Woody's Twist tire screws holding strength to stay in place season after season, and ease removal
- The carbide tip increases traction on many surfaces: snow, ice, mud, slippery rocks, wood, hard-packed dirt and gravel, and hills
- Also provide added traction for rounding corners and for surprises under the water
- Packaged in a clearly marked, sturdy plastic container for easy shipping and display

PRIVATEER TIRE WARMERS

The first to manufacture Tire Warmers in the USA, Chicken Hawk Racing has supplied virtually all of the AMA Superbike teams and is well known for its quality and durability. The choice of AMA Factory Teams such as Yoshimura Suzuki, Red Bull Roadrace Factory, M4 Roadracing and Team Geico Honda.

PRIVATEER TIRE WARMERS – FEATURES

- Allow for fast cornering from the first lap makes tire last longer
- Saves "heat cycles" so tires don't age by being heated and cooled
- Highest watt density – 650 watts rear and 500 watts front
- Slow, yet powerful, the warmer permeates the tire carcass with stable heat – attaining "hot tire pressure"
- Neoprene side panels insulate the wheel and ensure proper fit
- Back-n-forth heater design provides even heating
- Carbon and poly insulation for better heat retention
- Ballistic nylon exterior
- Dupont Nomex liner – melt-proof with temperature-sensitive dye
- Dual stage operating lights show when heating and when ready
- Nylon carrying bag
- Available in Standard, Dual Temperature and Digital models
- Sold in sets – one front and one rear
- Safe to use with DOT and race compound tires
- 120V operation

STANDARD MODEL

- Internal thermostatic control pre-set at 175°F
- 6' long power cord

DUAL TEMPERATURE MODEL – ADDITIONAL FEATURES:

- Change operating temperature with the flip of switch!
- Settings: Low-135° and High 175°F

DIGITAL MODEL – ADDITIONAL FEATURES:

- Carry Case – protects during transit and storage
- NEW – DTC3 Digital Controller includes these features:
- Both Target temperature and Actual temperature are visible
- Running Time shows how long the warmer has been running
- Quick Disconnect Power Cable – safety and convenience
- Normal mode or Gradual Heat Up modes can be selected
- Ability to display Fahrenheit or Celsius

TIRE VALVE STEM INSERTER

K&L GENUINE

- Simplifies the installation of valve stems in tubeless tires

SUG. RETAIL .....**$19.95** **PART #** 3811-0031

VALVE STEM PULLER

Dill® Air Controls Products

- Rugged tool handles any length valve in any size of rim
- Screws over valve threads
- Quickly install snap-in valve stems by applying pulling pressure

SUG. RETAIL .....**$18.95** **PART #** 0365-0002

VALVE STEM FISHING TOOL

LANG TOOLS Professional Tools For 4 Generations

- Used to pull valve stems and valve stems of inner tube assemblies through the valve stem hole on vehicle rims
- Tool has three functions: valve stem puller, valve core removal and tire deflator
- Unlike existing tools on the market, Lang's valve stem puller threads into the valve stem rather than over the valve stem
- Makes valve stem and inner tube jobs faster and easier

SUG. RETAIL **$22.95**

PART # 3810-0038

3-WAY VALVE CORE FISHING TOOL

MOOSE RACING

MADE IN THE USA

- Features an 8" high-strength flexible steel cable
- Tipped with a male valve core plug
- The tip is designed to screw into the valve's stem instead of over the stem
- Allows you 100% clearance through the hole in your rim
- The handle includes a tire deflator and valve core remover
- Made in the U.S.A.

SUG. RETAIL **$12.95**

PART # 3810-0042

slime

4-WAY VALVE TOOL

3810-0052

3810-0012

ATV BEAD BUSTER

- Heavy-duty Bead Buster easily removes old hard tires from rusty rims as well as safety bead tires from wheels
- Innovative tire tool features a leverage arm connected to a vertical breaking shoe that pushes straight down on the bead rather than a conventional bead breaker with an arcing motion
- Applying the force straight down breaks the bead much easier on old or stubborn tires; the vertical motion also prevents the shoe from sliding down the sidewall and pulling away from the bead
- Accessory kit sold separately
- Accessory kit includes center post thread protector, installation/removal bar and wheel holder

DESCRIPTION	PART#	SUG. RETAIL
Bead buster	3810-0052	$713.95

DESCRIPTION	PART#	SUG. RETAIL
Accessory kit	3810-0012	$192.95

3-IN-1 TIRE BEAD STARTER/SEATER/EXPANDER

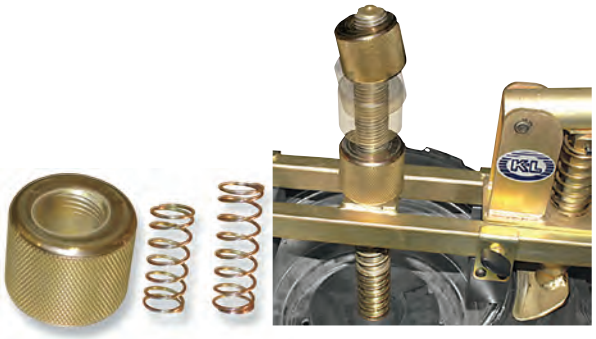

- All-in-one answer to stubborn tires is a must in any tire center
- Easy to use; just mount tire to wheel, position bead starter, then cinch down with ratchet lever. Add air until bead begins to engage, then slowly ease belt tension as more air is added

SUG. RETAIL .....$93.95 **PART #** 3810-0023

QUICK-RELEASE KNOB FOR BEAD BUSTER

- Cuts the time needed to break an ATV bead by 25%
- Slips over the threaded part of shaft on K&L Bead Buster PART #3810-0052
- Slides into place in less than one second
- Requires less than one turn to tighten

SUG. RETAIL $60.95

PART # 3810-0024

ATV BEAD BREAKER

- Breaks bead on 8", 9", 10" and 11" wheels in seconds
- Zinc-plated construction; weighs just 5 lb.
- Easy two-hand operation
- Small enough to pack along on hunting trips or your next visit to the track
- Won't damage tires and rims

SUG. RETAIL ..... $99.95 **PART #** 8000-1270

TIRE BEAD BREAKER

- Heavy-duty cast-iron alloy construction; 5½ lb.
- Measures 8" x 6¾" x 1¾"
- Separates beads on all on-road and off-road bikes
- Packaged with instructions
- Not for 170 or larger tires

SUG. RETAIL $49.95

PART # 4000

TIRE BEAD TOOL

- Easy help while mounting tire on the rim
- Perfect tool for compressing tire bead during tire changing

SUG. RETAIL .....$18.95 **PART #** 3810-0039

TIRE BEAD TOOL

- Holds the bead in place as you work your way around the tire
- Made of aluminum with a nylon screw so it will not scratch the rim
- Sold in pairs

TIRE CHANGER AND STRONGARM II

- Tire changer is specifically designed for motorcycle tire changing
- 1.5 hp motor
- Handles 6"-24" wheel diameter; 2"-10" tire width
- Strongarm II helps with new generation tires like Touring and Police bikes that have extremely stiff sidewalls
- Strongarm II uses air pressure to assist holding tire's bead in the drop center of wheel, even while turntable is revolving
- Strongarm II mounting system is designed to work with most popular tire machines and helps to keep tire changes a one-person job

ORDERING INFORMATION: NO PARTSNET/DRAGNET WEB ORDERS. THESE ITEMS ARE DROP SHIPPED FROM K&L. NO RETURNS.

STOP & GO

TUBELESS PUNCTURE PILOT KIT

- Ideal for motorcycles, scooters, mowers, small tractors, golf carts and ATVs
- Kit allows you to make an on-the-wheel repair to your tubeless tire and re-inflate it on the spot
- Includes the Pocket Tire Plugger with 15 mushroom-shaped rubber plugs and the compact mini air compressor
- Mushroom plugs measure 5/16" diameter shaft x 3/4" in length and work on all tubeless tires
- Kit fits into a durable zippered canvas case that measures only 7" x 4" x 3" and weighs just 1.7 lbs
- 12 Volt compressor unit features built-in gauge and LED Light, 66" power cord that fits Battery Tender connectors, 12" alligator extension clips, 36" extension lighter adapter and 4" tire valve hose with sports needle and inflatable adapter

SUG. RETAIL $64.95

PART # 0363-0055

TIRE REPAIR KITS

- Immediate roadside repair and reinflation of a punctured tire
- Tube/tubeless kit contains a buffer stitch tool, rubber cement, three 1 1/4" round patches, two 2" round patches, one 1 5/8" x 3" oblong patch, five 4 1/2" reinforced string plugs, a split-eye needle insertion tool; also includes an Engine Air Pump, 5' hose with spark plug adapters, quick-release lever that converts the motor into an air compressor, a rasp tool, valve cap/core remover, hand cleaner and towel, three patch/plugs (from the inside/out) and two 9 1/2" steel tire levers in a 9 1/2" x 4" vinyl zippered pouch
- CO_2 tube/tubeless kit contains the above patches and plugs, plus four CO_2 canisters and adapter for immediate inflation; also includes rubber cement, repair tools, valve cap, replacement core, hand cleaner and towel in a zippered vinyl pouch
- Engine Air Pump with adapters, 5' hose and carrying pouch also sold separately
- Replacement parts also available

NOTE: CO_2 cartridges cannot be transported on an aircraft.

TUBELESS T-HANDLE TIRE REPAIR KIT

- Sometimes tubeless tires can sustain damage that is beyond the ability of a mushroom plug
- A tear from jagged items can require the use of what is known as a string or rope plug
- Kit includes 20 brown rubber reinforced inserts (each 4" long), sturdy T-handle reamer, T-handle insertion tool, tube of rubber cement, retractable razor blade, repair instructions and a durable zippered canvas bag
- Kit measures 5" x 2" x 6" and weighs only 11 oz.

SUG. RETAIL $19.95

PART # 0364-0032

ATV TIRE REPAIR KIT

- Kit contains everything to make a speedy repair of tubeless ATV tires while still on the rim: split-eye tool, five plugs, CO_2 canisters, rubber cement and adapter, all in a handy zippered pouch
- Simply push the repair plug straight into the puncture and pull the tool straight out; plug material is extremely pliable so trimming is an option
- Each CO_2 canister provides 8-9 lb. of inflation at 850 psi; that means each of these canisters will fully inflate an ATV, golf cart, rider mower or utility vehicle tire

NOTE: CO_2 cartridges cannot be transported on an aircraft.

SUG. RETAIL $21.95

PART # 0363-0004

All part numbers in **BOLD MAGENTA** are new this year.

STOP & GO

AUTOMATIC TIRE INFLATION KIT

- Kit contains four canisters of CO_2 and a reusable valve adapter with brass fittings
- Each canister produces 8-9 lb. of pressure; generally takes all four canisters to reach 24-32 lb. of pressure, depending on the size of the tire
- Can be used on a variety of vehicle tires

NOTE: CO_2 cartridges cannot be transported on an aircraft.

SUG. RETAIL ..... $23.95 **PART # 0363-0005**

SCOOTER TUBE-TYPE TIRE REPAIR AND INFLATION KIT

- Includes six rubber patches, a tube of rubber cement and a thumb buffer to repair and secure patch to the tire, four CO_2 canisters to fully re-inflate the tire, as well as waterless hand cleaner and a paper towelette for quick hand cleaning
- Once the repair is complete, it takes only a few of the 16-gram CO_2 canisters to fully re-inflate the tire

SUG. RETAIL ..... $24.95 **PART # 0364-0034**

MINI AIR COMPRESSOR

- Portable 12V compressor measures only 4" x 2" x 6" and weighs just 14 oz.
- Features a built-in LED light and 0-120 psi gauge
- 4" tire valve hose; 66" power cord
- 12" extension alligator clips; 36" extension lighter adapter
- Includes sports needle adapter, inflatable adapter, complete instructions and rugged zippered carry case

SUG. RETAIL ..... $36.95 **PART # 0363-0040**

TUBELESS TIRE PLUG GUN

- On-the-wheel repair for all tubeless tires
- Gun inserts a natural rubber plug into the puncture area that expands under pressure to seal the hole
- Mushroom-shaped head seats on the inner wall
- Includes plug gun, nozzle and probe tool, retractable razor knife, reaming tool, 25 mushroom plugs, instructions and 9" x 6" zippered pouch
- Extra plugs sold in bags of 50

SUG. RETAIL ..... $44.95 **PART # 1075**

POCKET TIRE PLUGGERS
FOR TUBELESS TIRES

0364-0001

- Revolutionary device easily installs mushroom-shaped rubber plugs into all tubeless tires on the wheel
- Plugging device drives the plug into the hole with a twist of the Allen wrench; plug then expands under pressure to fill the punctured area; a firm pull on the stem seats the mushroom head on the inner wall allowing no air to escape
- Pocket Tire Plugger kit includes plugging device, nozzle adapter, rasp tool, probe tool, retractable razor knife, Allen wrench, 15 mushroom plugs ($5/16$" dia. x $3/4$" L stem), laminated instructions and comes in $3\frac{1}{2}$" x $7\frac{1}{2}$" zippered pouch; total weight only 12 oz.

STREET INFLATION KIT

- Kit contains everything needed to repair a tire or tube: CO_2 cartridges, tire plugs, patches, glue, reamer and plug installation tool
- Includes Monster air chuck and two 45g CO_2 cartridges for portable tire or tube inflation
- Compact zippered storage bag fits in toolbox

NOTE: CO_2 cartridges cannot be transported on an aircraft.

DESCRIPTION	PART #	SUG. RETAIL
Street tire repair kit	0364-0003	$59.95
45g 5/8" threaded refills (pr.)	0363-0007	29.95

PROFLATE TIRE INFLATOR

- Trigger-controlled technology
- A pop-out pressure indicator and a cartridge cup lock system are automatically activated when a charged CO_2 cartridge is in the inflator
- EZ Connect/Auto Detect that automatically grips the valve when inflation starts allowing for fast one-hand operation
- A built in water- and dirt-resistant shield is automatically activated during use
- Works with both Presta and Schrader valves
- Includes two 16 gram non-threaded CO_2 cartridges
- Now compatible with more CO_2 cartridge sizes: 12 gram threaded, 16 gram threaded and non-threaded, 20 gram threaded and 25 gram threaded cartridges

NOTE: CO_2 cartridges cannot be transported on an aircraft.

PART #	SUG. RETAIL
0363-0067	$29.95

ULTRAFLATE® TIRE INFLATOR

- Trigger-controlled technology
- Built-in trigger lock prevents accidental discharge
- Heavy-duty design and construction
- Works with both Presta and Schrader valves
- Includes one 16-gram non-threaded CO_2 cartridge
- Works with all Genuine Innovations threaded and non-threaded CO_2 cartridges (except 45 gram) and Big Air

NOTE: CO_2 cartridges cannot be transported on an aircraft.

SUG. RETAIL ..... $21.95 | **PART #** 0363-0066

AIR CHUCK CO_2 TIRE INFLATOR

- All-metal alloy design
- Easy to use and fully controllable
- Push-to-Inflate technology
- Works with both Presta and Schrader valves
- Includes one 16 gram and one 20 gram threaded CO_2 cartridge
- Works with all Genuine Innovations 12, 16 and 25 gram threaded CO_2 cartridges and Big Air cartridges (will not accept 45 gram cartridges)
- Made in the U.S.A.

NOTE: CO_2 cartridges cannot be transported on an aircraft.

PART #	SUG. RETAIL
0363-0068	$24.95

E-Z GRIP DUAL-HEAD AIR CHUCK

- Durable, E-Z Grip handle for comfort and a positive grip
- 1/4" NPT pipe-threaded end will accept airline quick-disconnect fittings
- Designed for use on hard-to-reach wheels

SUG. RETAIL .....$31.95 | **PART #** 3810-0037

E-Z GRIP AIR CHUCK TOOL

- Durable, E-Z Grip handle for comfort and a positive grip
- 1/4" NPT pipe-threaded end will accept airline quick-disconnect fittings
- Sealed-ball air chuck is extended 1" from handle to allow access to tight areas

SUG. RETAIL .....$20.95 | **PART #** 3810-0036

MP1 FOOT PUMPS

- Lightweight compact foot pump with gauge
- Compact size requires very little room
- High-pressure capability, more efficient than a hand pump
- Ultra-lightweight design transports easily
- Durable plastic construction
- Works with Schrader or Presta type valves
- Includes needle for inflating balls
- Foot brace folds away to compress pump

COLOR	PART #	SUG. RETAIL
Red	0363-0057	$29.95

DIGITAL TIRE PRESSURE GAUGE

- High-precision: accurate to +/- 0.6 psi
- 0-60 psi
- Precise digital readout to 0.1 psi
- Continuous pressure reading, no need to reset when activating bleed valve
- Four selectable scales (psi, BAR, kg/cm², kPa)
- Large easy-to-read display with back light for low-light applications
- Billet aluminum trapezoid body
- High-flow push-button bleeder valve for precise pressure adjustment
- 18" long high-pressure hose with dual swivels and brass ball type air chuck
- Rubber anti-shock protective boot
- Battery powered (1,000 tests) with battery strength indicator
- Auto-off to extend the battery life
- Battery included

SUG. RETAIL .....$99.95 | **PART # 3801-0190**

TIREPRO™ DIGITAL TIRE GAUGE

- Compact ergonomic shape for easy pressure readings
- Large display, with readings in 1/10 psi increments
- Readings available in multiple scales: psi, BAR, kPa and Kg/cm²; reads to 99 psi
- Auto power off, with last-reading recall feature

SUG. RETAIL .....$17.95 | **PART # 0363-0021**

DIGITAL TIRE PRESSURE GAUGE

- Rubber finished grip
- Measures in psi
- Digital readout
- Automatic shutoff

SUG. RETAIL .....$13.95 | **PART # 0363-0064**

PROFESSIONAL TIRE PRESSURE GAUGES AND HOLDER

- Pressure range of 0-60 psi is ideal for checking sport bike tires
- Pressure range of 0-30 psi is ideal for checking off-road motorcycle tires
- Pressure range of 0-15 psi is ideal for checking ATV tires
- High-quality liquid-filled 2.5" dial gauge with protective rubber boot
- Accurate to plus/minus 1.5% of maximum gauge reading
- Blue anodized 6061 T-6 body with pressure-relief valve
- High-pressure hose with dual swivels and brass ball-type air chuck
- Aluminum gauge holder is designed for use with Motion Pro tire gauge
- Gauge holder features a magnet on back that allows for quick mounting to any metal surface; can be used without magnet for permanent mounting
- Eye-catching number plate graphics with space for personalized race numbers
- Slight oil seepage is normal

DESCRIPTION	PART #	SUG. RETAIL

OFFROAD CROSS REFERENCE GUIDE

- Cross reference guide helps determine what parts fit common offroad motorcycles
- This is a guide ONLY, please refer to owner's manual or machine to ensure a correct fitment
- All model specifications are believed to be accurate but are subject to change due to manufacturer's updates and revisions that were not available at the time this cross reference was created

ATV/UTV CROSS-REFERENCE GUIDE

- A cross-reference guide to help you determine what parts fit common ATVs
- This is a guide ONLY, please refer to the owner's manual or machine to ensure a correct fitment
- All model specifications listed are believed to be accurate but are subject to change due to manufacturers' updates and revisions that were not available at the time this cross-reference was created
